SPRING PLANTING EDITION

WAGNER PARK NURSERIES
SIDNEY, OHIO.

A Personal Note

AS this catalog is being written, the outlook across our park and nurseries is colorless save the evergreens and some varieties of shrubbery. But the glory of the summer is still a vivid memory and I can again picture what it will all be in a few short months.

As you turn over the leaves of this catalog, I know the love of your own garden will help you picture now just what you want for next spring. I hope we can be of service to you in your plans.

Sincerely yours,

President, Wagner Nurseries.

Important to Purchasers—Read Carefully

EARLY ORDERS. Place your orders early, as it is almost impossible during the rush of the planting season to fill an order on short notice without doing an injustice to others who have their orders previously booked. We practice filling orders in rotation as received, in accordance, however, with locality and suitable planting season. Quantity rates as priced in this catalog, are, six plants of any variety at dozen rates. **Twenty-five** plants of any one variety at hundred rates. Less quantities are at single rate prices unless specially noted.

SHIPPING FACILITIES. We are admirably located for making shipments, having the C. C. C. & St. L. (Big Four) Railroad East and West, the B. & O. Railroad North and South; also the Western Ohio Electric, all of which connect with various lines. We have the Express Companies for above railroads, assuring you of prompt and direct service. Unless definite instructions are given we use our best judgment as to how to ship.

PARCEL POST. All orders sent by Parcel Post are prepaid and where found practical, we ship by mail. The plants used are not so large as for express orders and the soil is removed from the roots and wrapped in damp packing material so will carry to most distant states in good condition, unless delayed or left exposed in transit, over which we have no control. In ordering plants by mail please bear in mind that parcels are limited as to size and weight, and large sizes cannot always be sent by mail. Occasionally we find it necessary to express some orders that are wanted by parcel post, but such change is made only for good reasons.

PLANTS BY EXPRESS. This is the most satisfactory method of transportation, as it enables us to give good values in the form of fine, large plants. We do not prepay express shipments, but larger plants are sent, and if goods are miscarried they are easily traced, and if damaged in transit, more easily rectified. When sent by express we usually send some extras to help defray the charges. In case of any damaged stock notify the express agent immediately of the damage as they as carriers are liable for any damages in transit. Let them also make notation of damage on your express receipt or bill so that no controversies arise later with claim department.

FREIGHT SHIPMENTS. This method of shipment is advised only with heavy and bulky stock. Our direct lines North, East, South, and West, give us great shipping advantages over those who have only one railroad. In case of any damages to shipment while in transit handle as explained for express shipments.

SPECIAL NOTE. Many orders consist of articles both prepaid and not prepaid. In such cases if found to be an advantage to our customer to ship all by Parcel Post we do so. If we find it an advantage to forward all by express or freight and prepaid items do not add to cost of transportation, we so ship unless definite instructions are given to the contrary. We always look to the best interests of our customers. In case of any damaged stock or dissatisfaction, notify us immediately or a claim with us cannot be entertained.

GUARANTEE. Most failures with plants and bulbs growing are due to causes entirely beyond our control, such as unfavorable weather and soil conditions, too deep or too shallow planting, etc., which renders it impossible for us to guarantee success of growth. We take all possible care to supply such stock as will, under proper conditions, produce satisfactory results. We do guarantee stock to be true to name, and will upon proper proof, replace any that may prove untrue.

REMITTANCES. Remittances should be made by Post Office Money Order, Registered Letter, Bank Draft, or Express Money Order. Our terms are cash, and remittance should accompany order unless satisfactory references are given. Send remittance with order to avoid delays.

THE WAGNER PARK NURSERY CO.,
SIDNEY, OHIO.

GENTLEMEN: On other side of this sheet is a sketch of my grounds I wish to improve, and I shall be pleased to receive a plan from you as per offer in Catalog. I enclose \$2.00 (currency for which you are to send me a coupon good for this amount on an order for plants amounting to \$10.00 or more.

Name

TownState

Suggestions are always a help to us in preparing a plan that will meet the local conditions and individual tastes of every person, so kindly answer the following questions that are of particular interest to you.

Do you prefer natural effects?.....

Do you prefer formal effects?.....

Do you prefer we use our own judgment?.....

Do you want us to locate walks? (If so, show all entrances to buildings, etc.).....

Do you want a driveway? (If so, show where you prefer it.).....

Do you want any tender plants?.....

Do you prefer all hardy plants?.....

Do you like a lot of shrubbery?.....

Do you want a rose bed?.....

Do you want any hedges? Where preferred?.....

Do you want a formal flower garden?.....

Do you want an Arbor or Pergola?.....

Do you want us to locate trees? If any on grounds, show their location on sketch.).....

Do you want any fruit trees?.....

Do you want any street or avenue trees?.....

Do you want any evergreens?.....

Do you want any particular kind of trees?.....

Do you want a vegetable garden? (If so, where do you prefer it?)

When do you contemplate planting, this Season, or sometime later?

We receive many plans during our greatest rush that are not used until the following season and if we were advised to the effect that we may prepare them later after our rush is over it would not only accommodate us but our landscape department could then give more time to each and every plan and yet have them completed when ready to use them.

What is the limit you wish to expend for flowers?.....

This last question is a very important one, owing to many having quite large lawns, yet they do not desire to expend any great amount for flowers. If we know about the amount you wish to expend for flowers, we will arrange the plantings accordingly and you will receive a plan that will be practical for your grounds.

REMARKS

USE THIS SHEET FOR MAKING YOUR SKETCH WHEN SENDING FOR PLAN

For Terms and Other Information Regarding Plans See Catalogue.

NOTE.—The sketch need not be drawn to scale, but should give the principal dimensions, direction the house faces; North, East, South or West, and the location of entrances, dimensions of buildings, and windows in foundation, etc.; also location of walks, drives, if any trees and shrubbery, or other permanent things that are not to be removed. Also location of all entrances to lot and buildings, any objectional views to be retained, and terraces, or grades of any importance. Unless we have this information it will be impossible to prepare a plan that will be practical.

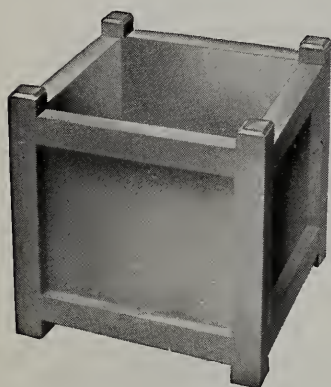

PLEASE DO NOT OVERLOOK ANSWERING QUESTIONS ON OTHER SIDE OF THIS SHEET

Wagner Plant Boxes

WE CALL particular attention to our Plant Boxes. They are the most durable and artistic Plant Boxes in the market. Plain and simple in design, yet very strong and lasting. They are very attractive and up-to-date in style, and such plants as Box Trees or Bay Trees, Palms and other plants have a very fine effect in them. We use heartwood Cypress exclusively, of which wood can be said, "Cypress is indeed the wood eternal." It lasts forever. Cypress does not shrink or swell like most woods, takes paint perfectly and defies decay.

The uses of the boxes are many. In large conservatories they are useful for palms, ferns and other plants. On the lawn or in the corridors, on verandas and steps they are excellent; not easily blown over like pots, while the additional soil space is a great advantage. Being square the boxes hold more soil than the round tubs. The legs keep the boxes from contact with the soil or floor and insure a circulation of air underneath. They are in short "excellent boxes in every way and can be strongly recommended for outdoor or indoor use." The variety of styles should include at least one that meets your special taste and needs.

All our boxes are finished in Flemish green, which harmonizes well with all surroundings. In formal gardens it is sometimes desirable to have them painted white, and if wanted in white we charge 15 cents extra for all sizes except boxes larger than 18x18 and window boxes larger than 36 inches, for which our charge is 25 cents extra. Measurements of all boxes are outside and inside dimensions.

Mission Plant Box

The Wagner Park Nursery Co., Sidney, Ohio

Wagner Lawn Seat

Wagner Lawn Seats are very handsome in design, and our efforts directed to turning out seats that are thoroughly well made and durable. No matter how small or large the space—in the flower garden, on the veranda, on the lawn or elsewhere—a lawn seat will be found very useful. We finish all of these seats in white, this being the most desirable color. We give them several coats of the best white paint, making them as attractive and effective as any marble seat. We use only the best heartwood Cypress, "The Wood Eternal," which gives them a lasting quality. Compare in appearance well with marble at only a portion of their cost.

PRICES OF LAWN SEATS

Seat made like cut; 4 ft. long, 14 in. wide; \$11.00 each; \$20.00 per pair.

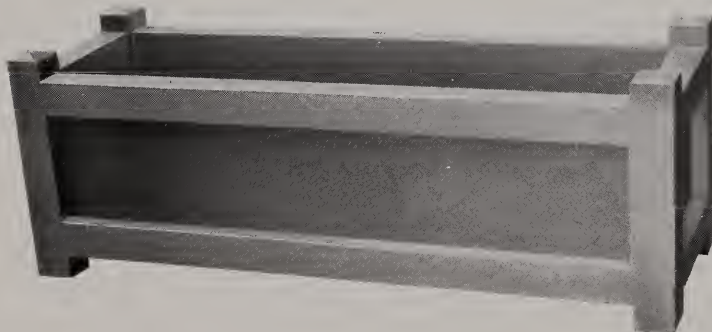

All material in this seat 2 inches thick and full width, no splicing. A good seat for a low price.

Seat made like cut; 5 ft. long, 16 in. wide; \$18.50 each; \$35.00 per pair.

All material in this seat 3 inches thick and full width. Makes an attractive lawn or porch seat.

Veranda and Window Boxes

These are designed after our very popular and well known Mission Plant Boxes, and with the variety of sizes we offer can be arranged to suit any space. All are twelve inches wide and twelve inches high, outside measurements. Fixtures for fastening to building are sent with each box.

Veranda or Window Box

<i>Outside</i>	<i>Inside</i>	<i>Each</i>
Box 24 inches	20½ inches.....	\$2.75
Box 30 inches	26½ inches.....	3.25
Box 36 inches	32½ inches.....	4.00
Box 48 inches	44½ inches.....	5.00
Box 60 inches	57½ inches.....	6.00

Wagner's Hardy Flowers

To those thousands of garden lovers who have already made the acquaintance of the Wagner Park Nursery the introductory paragraphs of this catalog will doubtless seem to be unnecessary. To them the rugged vigor of all the trees and shrubs and plants that come from Wagner Park is well known. They know, also, how carefully and scientifically Wagner plants are packed for shipment, assuring their arrival at destination with vigor unimpaired. They know of the endless variety of the Wagner stock, including every plant, tree, shrub, evergreen, flowering bush, tufted grass and hardy perennial that can be grown on American soil. They know the meaning of Wagner Landscape Service and how this service solves the problem of garden design, and secures the speediest and most permanent beautification of the home grounds.

These opening sentences are, therefore, addressed primarily to those of our readers who are not already familiar with the Wagner ideals, and who have not experienced the satisfaction that comes with Wagner plants and plantings.

Listed in the following pages you will find an endless variety of Hardy Plants, Shrubbery, Trees, Evergreens, Roses, etc., to create beautiful and artistic effects. Also House and Bedding Plants. We at Wagner Park are not contented merely to sell our merchandise. We look beyond the immediate commercial transaction, to the purpose for which every plant and tree and shrub is intended to serve in making beautiful some spot otherwise barren and unlovely. See our special service offer on inside rear cover page. In soliciting your order for Wagner plants we are, therefore, seeking an opportunity for extending the area of Wagner Service and sharing with you the satisfaction that always attends the realization of the Wagner ideal.

The Garden of Hardy Flowers is of gorgeous bloom from earliest spring until frost, glorified by its appropriate flowers from month to month, with new things each day to delight you. Year after year this goes on and the garden increases in beauty and loveliness, practically without any expense other than the first cost. Hardy flowers require less care and attention, are more free from insects and disease, yet producing abundance of beautiful blossoms. Among the Hardy Flowers are found all the old-time favorites and some of the noblest plants that have been dear to our Grandmother's garden, famous in song and story—a fragrant memory of gay sweetness. Hardy Flowers even defy the "melancholy days," for the autumn perennials—the cheerful asters, the dainty Michelmas Daisies, the many new varieties of Phlox of myriad pastel tints. Even after frost there are the gay hardy chrysanthemums, the "pompon" of Grandmother's day. Wagner Perennials are strong, splendid plants and include practically everything worth growing in the temperate zone. The vigor, the robust roots of Wagner-grown plants have advertised the merits of Wagner Nurseries in every part of the country.

Some Care and Cultural Information

In reference to the cultivation of hardy plants take care to start right. Remember that the plants are to stand undisturbed for some time and that they may flourish deep cultivation is very essential for many of our best hardy perennials are deep-rooting. Nothing suits them better than to get down to the cool reservoirs of moisture and air spaces during the hot parching months of July and August. The extra trouble of deep cultivation will be amply repaid in the extra quantity and quality of flowers. In addition they will require less attention as to watering, etc., especially if we must depend on the natural rainfall. Deep preparation of soil not only allows freedom of root action but also drains the soil in winter and renders it moist in summer.

If the ground where planting is of a very sandy nature it is better to neutralize it by the use of heavy clay loam and with sod, wood ashes or lime applied at the time of preparation is also good as

it has a binding effect on the soil. Mulching for this kind of soil is necessary for best success. In summer it prevents too rapid evaporation and provides a constant stimulus. It also acts as a protection in winter.

Plants like mankind cannot endure too much hardship. When they die there is certainly something that has caused it. A great many valuable plants that are sent out perish because of careless planting. No matter how careful we may be in lifting and packing the plants, some of them may be lost through neglect. The secret of success is to have the soil well prepared so that when the plants are received they can be planted without delay. After the planting is done, careful attention should be given to watering, especially if the weather is warm and dry. All hardy plants should have a heavy mulching during the first winter, which is a great protection and assists the plants to become well established.

Hardy Plants

Abbreviations Letters D, M. and T. immediately following the name of varieties indicate the height of the various kinds when fully matured, viz.: (D) indicates growing heights from 6 to 15 inches, plant these varieties from 6 to 15 inches apart. (M) indicates height from 15 to 36 inches, plant these varieties 12 to 30 inches apart. (T) indicates height from 36 to 60 inches, plant these varieties from 30 to 48 inches apart. There is no set rule as to distance for planting the various varieties. That is a matter of taste for some prefer heavy mass effects, requiring close planting while more open effects require planting farther apart. We give the two extremes as to distance but one may deviate from this rule, planting closer or farther as desired.

Mulching While mulching plants for winter is very beneficial and with many varieties necessary especially the first winter, many make the mistake by putting the mulch on too early before the plants are well ripened which frequently causes the green growths to decay and will sometimes rot the very crown and heart of plant life or growth. Again this early mulching frequently starts new growths owing to the heat of the mulch, which are killed when the freezing sets in. For best success do not mulch heavily until the ground is thoroughly frozen when the covering or mulch will keep the soil at an even temperature throughout the entire winter and when removed in spring the new growth will readily start fresh and vigorous, producing healthy, sturdy stalks and flowers.

EGOPODIUM Variegata (D). A rapid-growing plant, with variegated foliage, thriving in any soil; for covering waste or barren spots. Thrifty plants, 15c; large size, 25c; clumps, 50c.

ANEMONE Japonica Alba. Individual blossoms very large; snowy white. Very useful for cutting. Choice variety. Thrifty plants, 20c; large size, 35c.

ANTHEMIS Tinctoria (Golden Marguerite). (M). June to September. Golden yellow, one to two inches; sun or shade; border planting and cutting. Thrifty plants, 15c; large size, 25c; clumps, 35c.

AQUILEGIAS Hybrids. Long spurred, various colors, a fine mixture. Thrifty plants, 20c; large size, 30c; clumps, 50c.

ARALIA Cordata (M). Strikingly handsome foliage. Nice thrifty plants, 25c; large size, 35c; clumps, 50c.

BAPTISIA Australis (M). Handsome, dark green, fern-like foliage. Flowers pea-shaped, and bright blue. Baptisia withstands drought exceedingly well. Large size, 35c; clumps, 50c.

BOCCONIA Cordata (T). Flowers in terminal panicles of a creamy white color. Large size, 35c; clumps, 50c.

BOLTONIA Asteroides (T). One of the showiest of our native perennials, closely resembling and allied to the hardy Asters, flowers pure white. August and September. 6 feet. Thrifty plants, 20c; large size, 35c; clumps, 50c.

CASSIA Marilandica (American Senna). (M). July to August. Large panicles of bright yellow. Very distinct. Large size, 35c; clumps, 50c.

Coreopsis—An Ideal Yellow Daisy-like Flower and Excellent for Cutting and Decoration—Thrives in Any Soil or Situation.

Individual Spike of Aster Tartarica.

ASTER Tartarica (M). An exceptionally strong grower and a plant of great hardiness as it will endure almost any kind of exposure and cold without the least protection. The foliage is of good green color all season and in late summer and fall the plants are a mass of bloom produced on long erect stems. The color of flowers are a bright lilac purple and in many cases produce from 50 to 100 individual blossoms on one stem. The plant does well in any soil or situation. Best results are obtained when given a liberal feeding of well rotted manure in early spring and work into the soil around the plants or put on in late fall and remain on all winter. If after planted some time and plants become too thick owing to its rapid growth, remove same to allow cultivation or transplant them. Thrifty plants, 15c, 4 for 50c; large size, 25c, 5 for \$1.00; clumps, 35c to 50c each.

White Queen (M). Large white free-flowering variety with broad petals. Thrifty plants, 25c; large size, 35c.

COREOPSIS Lanceolata Grandiflora

(See cut). Gem among hardy plants. It begins to flower in June and continues in bloom more or less throughout the season. The flowers, which are of a golden yellow, are of a graceful form and invaluable for cutting. Succeeds in any position. Thrifty plants, 20c; large size, 35c; clumps, 50c.

Dear Sir:

New Orleans, La.

I promptly received my order which you have filled with great satisfaction to me. Your plants certainly are "aristocrats" among flowers. Once a dear old lady, who loved anything that grew in the earth, said to me reprovingly, "you care only for the aristocrats among flowers." I have not outgrown the fault. Judging from the vigorous manner in which the plants are starting growth, they are not a bit homesick for Ohio.

Thank you for the credit memo. I shall hold it for use on my next order.

Yours very truly,
G. LeG.

Prices in Quantities Six plants of any one variety listed above will be supplied at five times the single rate price. Twelve plants at ten times the single rate price.

Hardy Chrysanthemums

Many are the lovely flowers that give a succession of beauty throughout the summer day, but when fall comes we have still the best in reserve, notably old-fashioned and really hardy Chrysanthemums. Their blooming period is from August to November. Height, 18 to 36 inches.

Autumn Glow Beautiful rose crimson, flowers are large and a good grower. Thrifty plants, 25c; larger size, 35c; clumps, 50c.

Excelsior Large flowers, fully double and deep yellow. A fine variety. Thrifty plants, 25c; larger size, 35c; clumps, 50c.

GOLDEN QUEEN. A grand variety of strong growth. Medium size perfect flowers, of light sulphur yellow. Thrifty plants, 25c; larger size, 35c; clumps, 50c.

Goldfinch A very compact growing variety producing large clusters of beautiful gold and bronze flowers. 20c; large plants, 35c; heavy clumps, 50c.

HIAWATHA. An excellent grower, very compact and of free flowering, blossoms in clusters which are bronzy-red. Thrifty plants, 20c; large size, 30c; clumps, 50c.

INDIAN. Strong grower, full flowers, striped pink and crimson. Thrifty plants, 25c; larger size, 35c; clumps, 50c.

MATCHLESS. Yellow, striped with pink; large, semi-double flowers, medium size flower but free bloomer. 25c; larger size, 35c; clumps, 50c.

SUNSET. Double flowers. Base of petals yellow, outer edge shaded rose-pink. A showy combination. Thrifty plants, 25c; larger size, 35c; clumps, 50c.

Hardy Chrysanthemum Flowers.

Special Chrysanthemum Offer "Z"

1 Goldfinch

1 Autumn Glow

1 Excelsior

Nice thrifty plants, 50c; large size plants, \$1.00; extra heavy clumps, \$1.25.

Grandmother's Hardy Garden Mums

These are the old-fashioned and reliable Chrysanthemums that were so highly prized in the garden corners and alongside the house of "grandmother's home."

We offer the White, Pink, Red, and Yellow separate colors. Thrifty plants, 20c each; larger plants, 30c; clumps, 50c.

DELPHINIUMS, English. This collection includes practically all shades of blue. We offer mixed colors. Thrifty plants, 25c; larger size, 40c.

BELLADONNA (M). The freest and most continuous blooming. The clear turquoise-blue of its flowers is not equalled for delicacy and beauty by any other. Thrifty plants, 25c.

WAGNER'S SHASTA DAISIES. These are universally popular for outdoor planting, and considering their many good qualities, should be planted extensively. The flowers are of the purest, glistening white, of enormous size, and produced on long, stiff, wiry stems; excellent for cutting. Thrifty plants, 20c; larger size, 35c; clumps, 50c.

DIGITALIS Ambigua. Showy flowers of pale yellow. Thrifty plants, 25c; larger size, 35c; clumps, 50c.

GLOXINIAEFLORA (M). July and August. This strain embraces a wide range of color, from pure white to deep pink. Thrifty plants, 25c.

FUNKIA Coerulea (D). Their broad massive foliage makes them attractive subjects for the hardy border, even when not in flower. Very desirable for shady locations. Large field plants, 25c; extra large, 35c; clumps, 50c.

Undulata Media Variegata (D). Striped foliage, purple flowers. Large plants, 25c; extra large, 35c; clumps, 50c.

Sinensis (D). White tinged blue flowers, green foliage. Large plants, 25c; extra large, 35c; clumps, 50c.

Spathulata. Blue flower, green foliage. Large plants, 35c; clumps, 50c.

Verida. Green foliage with blue flowers. Large plants, 35c; clumps, 50c.

GAILLARDIA GRANDIFLORA (D). June to October. The center is a dark red-brown, while the petals are vigorously marked with rings of brilliant scarlet crimson, orange and vermillion, and often a combination of all these colors in one flower. Thrifty plants, 20c; large size, 35c.

Prices in Quantities Six plants of any one variety at five times the single rate price. Twelve plants at ten times the single rate price.

Shasta Daisies.

Payette, Idaho.

Dear Sirs:

The plants arrived in fine shape and I was certainly pleased with them. I think every one will live. They were such strong plants quite different from what I have been in the habit of getting.

Yours very truly,

H. W.

Bridal Creek, Va.

My dear Sirs:

The roots I ordered from you came in such excellent condition and I am so much pleased with them that I am sending you another order. I have never received roots or plants from any company as well fixed up so fresh. I am wild over flowers and want to get my yard planted. I shall certainly refer any other prospective buyers to you.

Thanking you very much I am very respectfully yours,

MRS. C. E.

Our Eulalia Grasses are the Finest Obtainable.

Hollyhocks

Garden Lover, Have You Ever Tried a Hollyhock Path?

Nothing to do with the "Primrose Path," but incidentally almost the prettiest sight in gardenom.

A "Hollyhock Path" is beautiful, and if you have a chance to make one don't miss it. The stately line of rose and scarlet and faintly flushed salmon sentinels, brilliant and warm in the center and paling to tender tones of nothing-at-all at the ends—well, even your blase "garden expert" gets out his enthusiasm for the Hollyhock Path.

Wordsworth, you will remember, who loved flowers and knew them, was a great Hollyhockian. His avenue of Hollyhocks at "Townsend," in lovely Grassmere, was famous. He used always to take his guests to see it. An eight foot grass walk with stately, myriad-colored shafts spring up on either side for three hundred feet.

You can approach the Wordsworth effect on your place. The plants need not be set out with great exactness but compactly; neither need color juxtaposition be considered, but firstly and lastly the plants themselves should be fine, strong, upstanding fellows. The following variety has been especially grown for our clients and will give entire satisfaction.

NEW MAMMOTH ALLEGHENY. This is a decided improvement in more than one particular over the old-fashioned variety. Its first point of merit is the fine transparent, fringed chrysanthemum-shaped flowers which look as though they were made of crushed silk. The flowers are single and in great variety of color. **Thrifty plants, 20c; large size, 35c.**

WAGNER'S DOUBLE PINK BEAUTY. This variety is indeed a beauty and distinct from all others. Flowers most pleasing shade of soft pink and perfectly double. **Thrifty plants, 20c; large size, 35c; clumps, 50c.**

Double Their flowers are large, fully double, handsome in form and lively shades of color. **Double White, Pink, crimson, and Yellow mixed. Thrifty plants, 20c; large size, 35c.**

Single These handsome and showy plants are great favorites. Their unique growth gives them a welcome everywhere. **Single White, pink, crimson, and yellow mixed. Thrifty plants, 15c; large size, 25c.**

IBERIS Gilbaltarica. April to June. White flowers, fine for edging. **20c and 35c.**

LILY-OF-THE-VALLEY (Convallaria). (D). May. White flowers. **Thrifty plants, 10c; larger, 20c; clumps, 35c.**

LYCHNIS Chalcedonica (M). June and July. Bright crimson clusters of flowers. Excellent for cutting. **Thrifty plants, 20c; large size, 35c; clumps, 50c.**

Hardy Ornamental Grasses

For ornamental purposes, such as hedging, planting in clumps to hide an unsightly object, or singly on the lawn, these grasses are strikingly original in effect and impart a degree of tropical brilliance to the landscape. The plumes which these grasses produce are large and beautiful, having a feathery appearance, and may be used for interior decoration. Absolutely hardy. All our plants are propagated from the root and hence more valuable than seedlings, which do not come true.

Few people are aware of the many ornamental grasses there are, and the extremely beautiful effects to be derived from them. They are invaluable for intermingling in the herbaceous border, where they impart a light and graceful effect. They will thrive under the shade of large trees and make handsome specimens on the lawn. Being moisture loving also, they are excellent for waterside planting, and for all other purposes which their graceful form suggest.

EULALIA Gracillima

This grand variety of Eulalia forms exceedingly handsome clumps 4 to 5 feet high, which are hardy in all parts of the country. The graceful narrow foliage is beautiful, shining green with mid-rib of silvery white. **Thrifty plants, 20c; large size, 35c; clumps, 50c; extra heavy clumps, 75c to \$1.00.**

Japonica

One of the most beautiful of the tall-growing grasses. Bright green foliage and unusually long plumes. **Thrifty plants, 25c; large size, 35c; clumps, 50c; extra heavy clumps, 75c to \$1.00.**

Japonica Variegata

Standard old sort of distinctive value. Blades striped lengthwise in a handsome manner, being a combination of creamy white in the center with broad margin of bright green. **Thrifty plants, 25c; large size, 35c; clumps, 50c; extra heavy clumps, 75c to \$1.00.**

Japonica Zebrina

This fine ornamental grass is the finest of Eulalias for single lawn specimens or clumping. Grows 4 to 6 feet high. The leaf blades are deep green, distinctly striped crosswise with large bars of pure white. **Thrifty plants, 25c; large size, 35c; clumps, 50c; extra heavy clumps, 75c to \$1.00.**

PHALARIS

Arundinacea Variegata (Ribbon Grass). An excellent variety, very desirable for bordering large beds of other ornamental grasses. **Thrifty plants, 10c; larger size, 25c; clumps, 35c.**

HARDY FERNS. Excellent for planting in shady places or for rocky.

Broadleaf. Finely dissected fronds. **25c and 35c.**

Evergreens. Deep green fronds. **25c and 35c.**

Maidenhair. One of the finest. **25c and 35c.**

Sword. One of the tallest. **25c and 35c.**

HELIOPSIS Pitcherianus (M). June to October. A desirable variety. The flowers are of a beautiful, deep golden-yellow color. **Large plants, 35c; clumps, 50c.**

Helianthus Maximiliana

(T). September to November. A most graceful single flowering variety; the flowers are produced in long, graceful sprays, which make it invaluable for cutting purposes. The foliage is beautiful, and remains green until late frosts. **Thrifty plants, 15c; large size, 25c; clumps, 35c to 50c.**

Mollis (T). August, September. Single lemon-yellow flowers. **Large plants, 35c; clumps, 50c.**

Prices in Quantities

Six plants of any one variety listed above will be supplied at five times the single rate price. Twelve plants at ten times the single rate price.

Day Lilies

Hemerocallis

One of the most beautiful and popular of our garden perennials. The foliage is narrow, grass-like, and remarkably free from insect enemies. These plants are so hardy that they need no protection over winter, even in the severest climates. The flowers resemble the famous Easter Lilies. The blossoms are excellent for cutting, lasting a long while and the most backward buds will open when in water.

The culture of these plants is very simple as they thrive in almost any kind of soil, but the most luxuriant growth and profusion of blossoms may be had when planted in a shady, moist location. For massing or planting in the hardy border with other varieties of plants or shrubs it is unrivaled.

APRICOT (D). A splendid new hybrid variety of good growth. Flowers are a rich apricot shade, a color seldom seen among plants.

DISTICHA FL. PL. (M). Broad foliage of good height. A late blooming variety. Flowers are double, orange yellow shaded copper.

DUMORTIERI (Japanese Day Lily). (D). A dwarf growing variety and of the earliest to bloom. Flowers a rich candidum yellow, reverse of petals bronze orange.

FLORHAM (M). Splendid new large flowering sort; bright yellow flowers.

FULVA (European Day Lily). (M). A variety of the earliest culture. Flowers; bronzy orange color.

GOLD DUST (D). Flowers bright Indian-yellow, buds and reverse of petals bronzy gold.

KWAMSO FLORE PLENO. This variety is equal to the Thunbergii in hardness and luxuriant growth. The foliage is slightly broader and of a good color. Blossoms are borne on long stiff stems and are of orange-yellow color. Its flowering period is during June and July. An excellent variety in every way.

LUTEOLA (M). A magnificent new hybrid combining the floriferous characteristics of Thunbergii. The long-tubed, half-reflexed, bright golden yellow flowers are borne on tall branching stems, each flower very large, blooming throughout the summer.

LUTEA MAJOR (M). A good strong grower, producing golden yellow flowers on very long stems. Very free flowering.

MIDDENDORFII (M). This variety is a native of Siberia and Japan. The blossoms are golden yellow and are fragrant.

THUNBERGII. This beautiful variety possesses all the desirable features in hardness and vigorous growth. Blossoms are pure yellow and sweetly scented and produced on long stems. It blooms so freely it would be practical to class it among the everblooming plants.

Prices of Hemerocallis All above varieties in strong field-grown plants, 20c each, \$2.00 per doz.; large size, 35c, \$3.50 per doz.; clumps, 50c each; \$5.00 per doz.; 4-year clumps, \$1.00 each.

Strong plants, \$1.50; large size, \$2.50; clumps, \$4.00.

Wagner Park Mallows (Hibiscus)

(See Illustration Front Cover.)

These Mallows are considered as the most marvelous of all hardy plants. Their flowers are of enormous size, often measuring eight to ten inches across, and are gorgeous in color. They bloom in the greatest profusion from July to October, and when in flower are a sight to behold. The plants are as hardy as an oak, and will grow in most any soil or situation. Do not fail to include some of these in your order. We can highly recommend even the mixed colors.

CRIMSON MALLOW. Most beautiful of all. Nothing more gorgeous in color. Large plants, \$1.00; extra large, \$1.50; clumps, \$2.00 each.

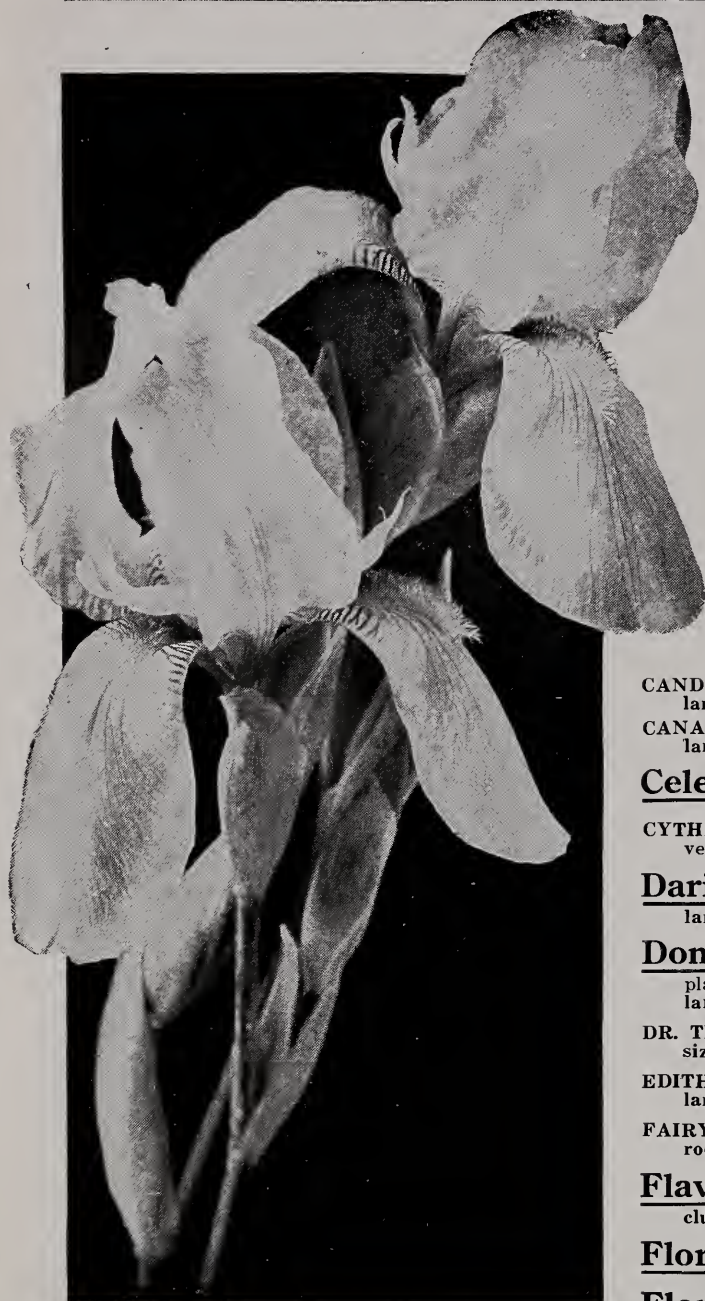

RED AND ROSE SHADES. This lot includes all choice bright shades. Large size, 75c; extra large, \$1.00; clumps, \$1.50.

PINK MALLOW. Most delicate shades of pink found among these. Large size, 50c; extra large, 75c; clumps, \$1.00.

WHITE MALLOW. Center of blossoms a rich crimson, making a fine contrast. Large size, 50c; extra large, 75c; clumps, \$1.00.

Crimson Mallow Seedlings These plants are grown from seed collected from the choicest crimson flowering plants and most of these plants will prove to be beautiful crimson and red shades. Thrifty plants, 50c; large size, \$1.00 each.

Mallows—Mixed Colors This collection includes a great variety of colors from pure white to dark red and scarlet shades. Every plant will give satisfaction. Thrifty plants, 15c; large size, 25c; clumps, 35c to \$1.00.

Fairy—A Most Beautiful and Delicate Variety.

Wagner Iris (American Grown)

The millionaire may enjoy his hothouse orchids; but nature has placed within the reach of everyone an absolutely hardy substitute "The Iris." Mysterious as the opal with its ever changing fire; more beautiful than the orchid, so fragile as to be crushed by the slightest pressure.

Iris flourish and flower exceedingly in any ordinary soil, however, they delight in well rotted manure and deep rich soil. Many are very thirsty subjects and adorn the margins of ponds and streams. Once planted they spread and increase in beauty and luxuriance year after year. A mass of flowers of one variety gives an effect long to be remembered.

IRIS ALVELREA. Upright petals light blue, falls brilliant purple. Strong roots, 25c; large size, 35c.

Atropurpurea Deep purple, large and fine; one of the best for general planting. Strong roots, 15c; large size, 25c; extra heavy clumps, 50c.

Aurea A beautiful species producing solid chrome yellow flowers with practically no markings, a good, free bloomer and very hardy. 20c each; large size, 35c each; extra heavy clumps, 50c each.

BLACK PRINCE. Early, rich royal purple. Strong roots, 35c; large size, 50c.

Bridesmaid (M). A soft lavender, falls penciled carmine; a wonderful blending. Strong roots, 15c; large size, 25c; extra heavy clumps, 50c.

California Fine bright sunflower yellow. Strong roots, 35c; large size, 50c; extra heavy clumps, 75c.

Calypso Pale blue, veined white and pale lilac, a grand variety. Strong roots, 15c; large size, 25c; extra heavy clumps, 50c.

CANDICANS. Stand petals light lavender, falls reddish-purple. Strong roots, 25c; large size, 35c; clumps, 60c.

CANARY BIRD. Stand petals bright yellow, falls deep yellow. Strong roots, 35c; large size, 50c; clumps, 75c.

Celeste Celestial blue changing to porcelain; most beautiful combination. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

CYTHERA. Tall grower and fine flower. Stand petals lavender, falls purple, veined white. Strong roots, 35c; large size, 50c; clumps, 75c.

Darius A strong grower, stems often attaining a height of 2½ feet. Stand petals lemon-yellow, falls lilac, bleaching on edge. Strong roots, 25c; large size, 40c; clumps, 60c.

Donna Marie A most beautiful variety producing large pearly white flowers. Outer petals are shaded lilac. Fine for general planting, as it will harmonize with any other variety of plants. 25c each; large size, 40c each; extra heavy clumps, 60c each.

DR. THEMENT. A deep rosy-purple with deeper veins. Strong roots, 35c; large size, 50c; clumps, 75c.

EDITH COOK. A deep yellow, splashed with purple, very odd. Strong roots, 30c; large size, 40c; clumps, 60c.

FAIRY. A very light lavender, almost white. Unusually free flowering. Strong roots, 20c; large size, 35c; clumps, 50c.

Flavescens Light primrose yellow, very large, fine flowers; remarkably free-blooming. Strong roots, 15c; large size, 25c; extra heavy clumps, 50c.

Florentina A solid blue, early, fragrant, fine for general planting. Strong roots, 20c; large size, 35c; clumps, 50c.

Florentina Alba (Orris Root). Flowers large and very fragrant; color white tinged with blue, and of the earliest to come into bloom. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

Fragrans Stands white, edged blue, falls white, blue veined. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

GERTRUDE. Beautiful violet-blue, solid color. Strong roots, 25c; large size, 35c; clumps, 50c.

GLADSTONE. Erect petals white tinged violet, drooping petals deep violet, almost a solid color, white stripes at base of petals. Strong roots, 25c; large size, 35c.

GRACCHUS. Erect petals lemon, drooping petals pale yellow reticulated purple; dwarf compact growing. Strong roots, 25c; large size, 35c.

Harlequin An orchid-like flower, stands pearly-white with purple spots, falls heavy-striped with deep purple. Strong roots, 25c; large size, 35c; clumps, 50c.

HER MAJESTY. Pinkish violet and deep reddish violet with dark veinings. Strong roots, 25c; large size, 35c; extra heavy clumps, 50c.

Honorabilis Stands golden-yellow, falls crimson-brown. Strong roots, 15c; large size, 25c; clumps, 50c.

John Dewitt Stands bluish-violet, falls deep violet purple, a grand variety. Strong roots, 20c; large size, 30c; clumps, 50c.

JULIUS CÆSAR. Upright petals yellow, falls brownish stained yellow. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

KHARPOT. Standards violet; falls velvety violet purple; very large, handsome flower. Strong roots, 35c; large size, 50c.

Madam Chereau One of the most popular of this species. A strong grower, very hardy and free bloomer. The flowers are as delicate as orchids, are pure white with edges penciled lavender. 25c each; large size, 35c each; extra heavy clumps, 50c.

Mrs. Darwin Very fine large, pearly white, free flowering. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

MRS. NEUBRONNER. An exceptionally fine golden yellow. A grand, free bloomer. Strong roots, 25c; large size, 35c; clumps, 50c.

MAJORI KING. Stands yellow, falls satiny-brown edged yellow. Strong roots, 30c; large size, 40c; clumps, 60c.

NECLECTA. Upright petals fine, deep lavender, falls purple, large flowers, very fine. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

PALLIDA A. VICTOR. Very large, deep lavender, extra fine. Strong roots, 35c; large size, 50c; extra heavy clumps, 75c.

PALLIDA QUEEN OF MAY. Erect petals orange, falls rosy lilac, veined yellow. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

IRIS—Continued.

Pallida Speciosa Stands dark lavender, falls light purple. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

Parisensis Early, large and fine. Stand petals beautiful blue, falls deep blue. Strong roots, 25c; large size, 35c; clumps, 50c.

PARKMANI. Upright petals deep lavender, falls purple, large flowers, very fine. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

PENELOPE. Upright petals nearly white, falls veined lively purple. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

Plicata Stand petals violet purple, falls deep purple; very striking. Strong roots, 25c; large size, 35c; clumps, 50c.

QUEEN OF THE GYPSIES. Center petals light brown, lower petals reddish purple and old gold. Strong roots, 15c; large size, 25c; extra heavy clumps, 35c.

ROSEBERRY. Center petals violet bronze, outer petals rich carmine. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

REBECCA. Stand petals golden yellow, falls yellow and plum. Strong roots, 30c; larger size, 40c.

SAPHO. Tall grower, stand petals violet blue, falls rich purple. Early, fragrant. Strong roots only, 50c.

STENOPHYLLA. Late bloomer, large flowers and orchid shape. Color deep blue with darker shadings. Strong roots, 50c.

Souvenir Upright brilliant yellow, falls freely veined network of yellow, buff and maroon. Strong roots, 20c; large size, 35c; extra heavy clumps, 50c.

Spectabilis Stands pale lavender, falls blue and old gold. Strong roots, 15c; large size, 25c; extra heavy clumps, 35c.

ULYSSE. Tall, gray tinged brown, falls, petals purple; late. Strong roots, 50c.

Some Special and Desirable Kinds

Orientale Blue King

One of the most beautiful of the Iris and a native of Japan. Blossoms on tall, erect stalks and are a bright clear blue. Foliage narrow, grass-like, and remains green all summer. Strong roots, 20c; large size, 35c; clumps, 50c.

Siberian

The most elegant and delicate of the Iris. Foliage narrow, grass-like with stems long and blossoms a clear blue. A very fine flowering variety, and one of the best for cutting. 20c each; large size, 30c; heavy clumps, 50c each.

Wagner's Snow White Iris Gigantea

A grand, tall, strong, vigorous grower, producing thick, heavy dark green foliage and grows very erect. The foliage remains green all season and contrasts finely with shrubs and other plants. The large, pure, snow-white blossoms have a waxy appearance and are freely produced.

This variety flowers somewhat later, coming into bloom during June, just ahead of the Japanese. Gigantea is a variety unsurpassed for cutting and is of the easiest culture; will grow and thrive in any ordinary soil. Strong roots, 20c; large size, 35c; clumps, 50c.

Orchid Iris (Pseudacorus)

Rare and beautiful indeed is this variety owing to its habits, form and color of flowers. It is a healthy, robust grower, upright, and flowers borne on strong, stiff stems. The flowers are pure yellow, a color rarely seen among Irises. Excellent for planting in low, wet soil and marshy places. Will also do fine on high ground among shrubbery and perennial borders. Blooms in May and June. Height, 2½ feet. Strong roots, 25c; large size, 35c; clumps, 50c.

Iris Pumila

Dwarfest Grower, Earliest to Bloom.

This variety blooms in April, coming at a time when few outdoor plants are in flower. It is of very dwarf, compact growth and makes a fine edging plant. The foliage is a beautiful green and seldom attains a height greater than 6 to 8 inches. The flowers are freely produced and in color are a rich royal purple. Plant them freely—you will not be disappointed. They are equally as effective as Hyacinths, Narcissus, etc. Strong roots, 15c; large size, 25c; clumps, 35c.

Iris Snow Queen

An exceptionally free blooming variety of strong erect growth with good foliage which remains so throughout the entire season. The blossoms are excellent for cutting purposes, being an ivory white color, are charming indeed. Base of erect petals fine canary yellow, very fine. 20c each; large size, 30c each; clumps, 50c each.

Wagner's Extraordinary Iris Offer

VIRGILS. A light brownish blue, lower petals purple and gold. Strong roots, 15c; large size, 25c; extra heavy clumps, 35c.

Walneri Lilac center, lower petals purple. Strong roots, 15c; large size, 25c; extra heavy clumps, 35c.

WILLIAM III. Stands light blue with darker veins, falls buff yellow, light blue veins. Strong roots, 20c large size, 35c; extra heavy clumps, 50c.

Prices in Quantities Six plants of any one variety listed above at five times the single rate price. Twelve plants at ten times the single rate price.

A Wagner Peony Blossom.

Lady Elbrower Light pink; among the freest flowering peonies we have and the color is a beautiful shade. Strong roots, 40c; large size, 60c; clumps, \$1.00.

Marie Lemoine Delicate flesh; a very free flowering variety and one that may be depended upon. Strong roots, 50c; large size, \$1.00; clumps, \$2.00.

MD. BRESON. Flesh color, whitish yellow center. Strong roots, 50c; large size, \$1.00; clumps, \$2.00.

Prince of Wales Bright pink, one of the best and brightest of all, medium size flower, but free bloomer. Strong roots, 50c; large size, 75c; clumps, \$1.50.

ROSEA ELEGANS. Delicate rose. Strong roots; 50c; large size, 75c; clumps, \$1.25.

RUBRA SUPERBA. Magnificent, rich, brilliant crimson, very large and double. Strong roots, \$1.00; large size, \$2.00; clumps, \$4.00.

Mixed Double Peonies This grand mixture includes some of the finest sorts. No imperfect ones among them. Strong roots, 35c, 3 for \$1.00, \$3.50 per doz.; large size, 50c, 5 for \$2.00; clumps, 75c, 5 for \$3.00.

Single Peonies

Single Blush White A wonderfully free-flowering variety, extra large petals and most delicate color. Strong roots, 75c; large size, \$1.00; clumps, \$2.00.

SINGLE RED. Very showy. Strong roots, 75c; large size, \$1.00; clumps, \$2.00.

TENUIFOLIA. Rich crimson. Finely cut foliage. Strong roots, 50c; large size, 75c; clumps, \$1.25.

Japanese Varieties

Everyone should have a collection of these Peonies. Their large, showy flowers resembling chrysanthemums, are very fine for cutting.

Miles Standish Shell pink, Chrysanthemum center. An excellent variety. Strong roots, 50c; large size, 75c; clumps, \$1.50.

Queen Esther Blush white. Chrysanthemum center. A beautiful and showy variety, free bloomer. Strong roots, 50c; large size, \$1.00; clumps, \$2.00.

Quantity Prices Six plants of any one variety will be supplied at five times the single rate price. Twelve at ten times the single rate price.

Wagner Park Double Peonies

Wagner Park Peonies are the most beautiful of all the Hardy Perennial plants, and should be in every garden, large or small, in bed borders, shrubberies or drives; in park, grass or woodland. They should, therefore, be planted near at hand for close enjoyment of their beauty, as well as in masses for distant color effect.

Our Three First Prize Peonies

These three varieties we consider the very best for general planting or cut flower purposes.

FIRST PRIZE PINK. Beautiful pink, tips shading to silver shade; almost identical to a La France rose. Blossoms are extra large, long stems. Strong roots, 50c; \$5.00 per dozen; large size, 75c; \$8.00 per doz.; extra heavy clumps, \$2.00.

FIRST PRIZE RED. In color this variety resembles the American Beauty rose, but surpasses it on account of its larger size and profusion of blossoms. Strong roots, 50c each; \$5.00 per doz.; large size, 75c; \$8.00 per doz.; extra heavy clumps, \$2.00 each.

FIRST PRIZE WHITE. Large pure white with a very few pink markings in the center. Fine for general cultivation. Strong roots, 75c; large size, \$1.00; extra heavy clumps, \$3.00 each.

SPECIAL OFFER—THREE PRIZE PEONIES—One of each color. Strong roots, \$1.50; large size, \$2.00; extra heavy clumps, \$6.00.

American Beauty Deep pink. Strong roots, 50c; large size, 75c; clumps, \$1.00.

Charlemagne Lilac white, slight blush center. One of the best. Strong roots, 75c; large size, \$1.25; clumps, \$2.50.

Clarissa Rose pink. One of the finest flowering varieties we grow. Strong roots, 50c; large size, 75c; clumps, \$1.50.

Compte de Paris Rose color with salmon center, a variety that will always give satisfaction. Strong roots, 50c; large size, 75c; clumps, \$1.50 each.

Dorton's Coros Beautiful bright pink, a showy and free flowering variety and of a solid color. A very satisfactory peony. Strong roots, 50c; large size, 75c; clumps, \$1.50.

Duc de Gazes Outer petals deep rose, center silvery rose. Strong roots, 60c; large size, 75c; clumps, \$1.50.

Fragrans Violet rose, all of one color, very full and sweet, a rather late flowering sort. Strong roots, 50c; large size, 75c; clumps, \$1.50.

Humei Rosea Enormous double pink flowers of good growth and compact habit. Strong roots, 40c; large size, 60c; clumps, \$1.00.

Lady Bramwell Silvery rose; a very delicate variety and will thrive in most any ordinary garden soil. Strong roots, 40c; large size, 75c; clumps, \$1.00.

First Prize Pink.

Wagner's Hardy Phlox

Do not overlook these in your collection of plants. Certainly no perennial is more worthy of cultivation, more satisfactory in every situation or more effective either as individual plants or grouped in masses in the hardy borders. The plants begin to flower in early summer and the garden borders can be kept aflame with great flower cones from June until frost. Our small, Thrifty Plants will produce surprisingly good results.

AMETHYST. (Our introduction). (M.) Violet rose; a little deeper towards the center. Late flowering which makes it a very valuable variety. Thrifty plants, 25c.

AURORA (M). Light pink with crimson center. Thrifty plants, 25c.

BRIDESMAID (M). Pure white with large, crimson center; very free flowering. Thrifty plants, 25c; large, 40c; clumps, 60c.

ISABELL DUPUY (M). Rose, red center. One of the best pinks; very bright, excellent for backgrounds. Thrifty plants, 25c.

JEAN LIAUD (M). Extra large flowers, forming large compact flower heads. Color, rosy pink with bright, crimson star in center. Very handsome. Thrifty plants, 25c.

J. T. TEMPLE (D). Deep pink, very fine. Thrifty plants, 25c.

MISS LINGUARD (M). A grand early white, lilac eye. Thrifty plants, 25c; large, 40c; clumps, 60c.

PRESIDENT WILSON (M). A beautiful rosy pink, with crimson center. Nice, thrifty plants, 25c.

PINK BEAUTY (M). Very fine pale pink of enormous size. Thrifty plants, 25c.

SUNSET (M). Beautiful deep pink, and will without doubt supersede all others of this color; excellent for massing or in solid beds. Thrifty plants, 25c; large, 40c; clumps, 60c.

WM. ROBINSON. Rosy salmon, small crimson eye, very fine flowers. Thrifty plants, 25c.

VON LASSBURG. Splendid pure white with very large individual flowers. Thrifty plants, 25c; large, 40c; clumps, 60c.

Wagner's Hardy Phlox.

Rudbeckia Purpurea.

PHLOX, Wagner's Special Offer No. 50. This collection consists of a choice lot of seedlings selected for their superior quality, color and size of flower clusters. They surpass many of the named varieties in size of flower and truss. Color ranges from delicate flesh to bright pink, reds and other beautiful shades. Thrifty plants, 20c; large size, 35c; clumps, 50c.

Subulata (Moss or Mountain Pink). Early spring flowering with pretty moss-like evergreen foliage, very dwarf.

Rosea. Very free-flowering; pinkish-purple, dark center. Thrifty plants, 15c; large size, 25c; clumps, 35c to 50c.

Alba. Pure white. Thrifty plants, 15c; large size, 25c; clumps, 35c to 50c.

PACHYSANDRA Terminalis (D). May and June. White flowers. 20c and 35c.

PAPAVER Orientale (Poppy). Nothing can equal these in gorgeous effect. Rich, brilliant color. Blooming size, 25c; larger size, 35c; extra large, 50c; heavy clumps, 75c to \$1.00 each.

PARDANTHUS (Blackberry Lily). (Sinensis). Lily-like flowers of bright orange. Followed with seeds resembling blackberries. Thrifty plants, 20c; large size, 35c; clumps, 50c.

PENTSTEMON Smalli (D). July-August. Rosy carmine flowers. Thrifty plants, 20 cents; larger, 35 cents; clumps, 50 cents.

Pubescens (D). July and August. Bright rosy purple flowers. Large size, 30c; clumps, 50c.

PERIWINKLE (Hardy Myrtle). For covering bare ground where grass will not grow it is indispensable. Thrifty plants, 15c-20c; large size, 30c; clumps, 50c.

Physostegia Virginica (M). July. A unique and attractive American plant that stands apart from all other hardy plants. For massing or planting in the hardy border it is unrivaled. Flowers are produced in large, graceful spikes, and are bright, soft pink. Thrifty plants, 20c; large size, 35c; clumps, 60c.

PINKS, Lord Lyon. Fine, showy bright pink flowers on long, stiff stems. This variety will give entire satisfaction. Thrifty plants, 20c; large, 35c.

PINKS, White Reserve. An excellent double white variety. The flowers are large on long stems. A profuse bloomer. Thrifty plants, 25c; large size, 35c.

Dear Sirs:

Plants have arrived and in good condition. We are pleased with same and hope to patronize you in the near future. Beg to remain,

Very respectfully,
JOE C.

Rockwood, Pa.

Prices in Quantities Six plants of any one variety at five times the single rate price. Twelve plants of any one variety at ten times the single rate price.

HARDY PLANTS—
Continued.

PLATYCODON GRANDIFLORA (Japanese Bell-flower). (M). June to October. A plant that is closely allied to the Campanula or Canterbury Bell, bearing continuously cupped star-shaped blue flowers. Thrifty plants, 25c; large size, 35c; clumps, 50c.

For the 20 plants in extra heavy clumps—all are distinct varieties.

TRITOMA Pfitzeri. A most beautiful and exceedingly ornamental flowering plant, surpassing the finest Cannas and equal to Gladiolus as a cut flower; planted in shrubbery border with other herbaceous plants they give a superb effect. Large attractive flowers on long stems. Color, rich, orange scarlet. Large plants, 25c; extra large, 35c; clumps, 50c; extra heavy clumps, \$1.00.

VERONICA, Maritima (D). September. 2 feet. Large plants, 35c; clumps, 50c.

Rupestris (D). May. Deep blue flowers. Large plants, 35c; clumps, 50c.

VIOLET. Large double flowers, light purple. Large plants, 25c; clumps, 50c.

VIOLET, La France. Single flowers, light purple. 25 cents.

Yuccas (Filamentosa)

Hardy Flowering Evergreen Plants of Great Beauty.

The Yucca Plant is so unusual and so strikingly effective, either when planted alone or in combination with other evergreens, that it attracts attention on the humblest lawn, and is worthy of a place in the most pretentious garden.

The rich, green foliage grows in thick clumps of long, slender, graceful evergreen leaves. Planted in good soil the flower stalks grow tall and each stem frequently bearing from 50 to 200 big, creamy-white, bell-like blossoms. Bearing in mind that an individual blossom often measures 2 inches, one can picture the rare effectiveness of a large cluster of these.

Yuccas are particularly desirable on account of their hardiness and their ability to grow in poor scanty soil, on terraces, or among rocks—any place, in fact, where there is just enough earth for their roots to take hold. All in all the Yucca is one of the most satisfactory plants, and we recommend it heartily for giving year-round beauty to any lawn.

Thrifty plants, 20c; large size, 35c; extra large, 50c; heavy clumps, 75c to \$1.00 each.

Prices in Quantities Six plants of any one variety listed above will be supplied at five times the single rate price. Twelve plants at ten times the single rate price.

Yuccas are Like Giant "Lily of the Valley."

This Illustration Shows a Good Example of Shrub Planting. Such Results may be Obtained with Spirea, Deutzias, Philadelphus, Forsythias, Symphoricarpos, Cornus Siberica and Berberis Thunbergii.

Hardy Flowering Shrubs

Through the hot, dry period of summer, the coolness and rest of a fine shrub plantation is indescribably refreshing. The cultural requirements of ordinary shrubs are very simple. "Success with Shrubs," when the plants are vigorous Wagner Park stock, is easy, pleasurable, and sure. All Wagner Park Shrubs have been transplanted and are in robust health and condition.

VARIETIES SUITABLE FOR SHADY PLACES: Altheas, Berberis, Caryopteris (Blue Spirea), Cornus, Cydonia, Cephalanthus, Deutzia, Forsythias, Lonicera, Philadelphus, Rhus, Sambucus, Spireas, Symphoricarpos (Snowberry), Syringas (Lilacs) and Tamarix. The above varieties will also thrive in sunny, open situations.

VARIETIES WITH VARIEGATED, HIGHLY COLORED FOLIAGE, BARK, AND BERRIES: Kerria Variegata, Sambucus Aurea and Variegata, Spirea Opulifolia Aurea, Weigela Variegata. Among trees: Acer Schwedleri, Reitenbachii, Fagus Riversi, Berberis, Cornus Siberica, Cydonia, Euonymus (Strawberry Tree), Eleagnus, Lonicera, Rhus, all varieties, Rhodotypos, Ribes, Rosa Rugosa, Symphoricarpos (Snowberry, Red and White), Viburnum (Snowball) Opulus, Lantana.

Shrubs always have hard wood like the branches of a tree, and this wood does not die during the winter, except in a few of the more tender varieties, which branches should be cut off as soon as the live branches begin to sprout in spring.

PRUNING SHRUBS: In pruning shrubs they should be allowed to take their most natural and perfect form, and when branches become old and weak they should be cut away from the outside, thus thinning out and allowing the new shoots to grow and take their place. The practice of shearing the ends of branches only without thinning out any of the inside branches cannot be too severely condemned, for it not only gives them an unnatural form in which there is little or no beauty, but also causes an increase in the number of small imperfect shoots on the end of the branches, and resulting in a very imperfect growth that produces very few flowers. Pruning should be done right after the flowering season, especially with the early flowering sorts such as the Lilac (Syringas), Snowball (Viburnum), Cydonias, Forsythia (Golden Bell), etc., are best pruned in the spring before new growth starts, this will insure good strong branches and large flowers. Dead branches and irregular or straggly growth may be cut away at any time.

ABBREVIATIONS AND PLANTING INSTRUCTIONS: (I) (II) (III) immediately following the name of each variety indicate the height of plants when fully matured. (I) Indicates varieties growing from 1 to 3 feet, plant from 1½ to 3 feet apart. (II) Indicates height from 3 to 8 feet, plant these varieties from 3 to 5 feet apart. (III) indicates height from 8 to 12 feet, plant from 5 to 8 feet apart. There are no set rules as to distance for planting as some prefer heavy mass effects which require close planting, while more open effects require planting farther apart. We have given both extremes yet one need not follow these exactly.

Special Note M. L. X. S. indicate size of stock offered. "M" indicates thrifty well rooted young plants. "L" indicates large size plants. "X" indicates extra large select plants. "S" indicates specimens.

Special Shrub Offer---20 Plants \$5.00

As an example of the superb values offered by the Wagner Park Nurseries, nothing could be more convincing than a collection of choice hardy flowering shrubs that will make a beautiful setting for your home for years to come.

2 Spirea Van Houttei.	2 Philadelphus, Medium.	}	Medium Size Plants	- \$5.00
6 Berberis Thunbergii.	2 Deutzia, Medium.		Large Size Plants	- 7.50
4 Spirea Callosa Froebeli.	2 Symphoricarpos.		Extra Large Size Plants	10.00
	2 Hydrangeas, Hardy.			

HARDY FLOWERING SHRUBS—Continued.

ALTHEA (Rose of Sharon). See illustration rear cover. Handsome late summer blooming shrubs, coming into bloom when few shrubs are in flower. As a hedge plant they are very valuable.

Bicolor Hybridus Double white; fine, large flower. L., 35c; X., 50c.

Boule de Feu. Large violet-red flowers. M., 30c; L., 40c; X., 60c.

Elegantissima Plena Double, white, shaded with rose. L., 35c; X., 50c.

Grandiflora A very fine dark red variety. L., 35c; X., 50c.

Jeanne D'Arc. Double, pure white; one of the finest. L., 35c; X., 50c.

Lady Stanley. Double blush-white flowers; one of the best. L., 50c; X., 75c; S., 7 ft., \$2.50.

Speciosa plena. Fleshy-white. L., 50c; X., 75c.

Mixed Colors. A fine collection of various colors mixed. M., 30c; L., 45c; X., 60c.

AMELANCHIER Botryapium (III). Beautiful shrub-like tree producing racemes of pure white flowers. L., 35c; X., 50c.

AMORPHA Fragrans (I). A large, spreading bush with pinnate leaves and slender spikes of deep purple flowers; blooms in June. L., 35c; X., 50c; S., 6 ft., \$1.50.

ARALIA Pentaphylla (III). Upright arching shrub with glossy, waxy foliage. Excellent for the shrubby border. L., 35c; X., 50c.

ARONIA Floribunda (II). White flowers. X., 50c; S., 5 ft., \$1.50.

BERBERIS Thunbergii (II). May. In autumn it is aglow with scarlet leaves and berries. Small plants, 25c; \$2.50 per doz.; \$15.00 per 100; M., 35c; L., 50c; X., 75c; S., 2 by 2 ft., \$1.00.

BUDDLEIA, Variabilis (Butterfly Bush). (II). September. Flowers lilac color. Very desirable owing to its lateness in flowering. Nice young plants, 50c.

CALYCANTHUS, Floridus (II). Double chocolate colored flowers. L., 40c; X., 60c.

CEPHALANTHUS Occidentalis (III). July. Curious balls of blossoms on long stems. Fine for heavy background. M., 25c; L., 35c; X., 50c.

Forsythia. These shrubs are unequalled by any of the others. They blossom before the foliage appears, and are indeed attractive. Try them, for they may be used effectively anywhere.

Cornus Siberica. This is one of our most showy Shrubs, and may be used with good effect either in the Shrubbery Border or in large groups on the Lawn.

CORNUS (Dogwood). The name, Dogwood, first brings to mind the White Dogwood (Cornus Florida), with its large, butterfly-like blossoms in May. Species here described are shrubs of decided value in decorative planting, those with red bark filling a place occupied by no other.

Alternifolia (III). It has clustered white flowers, dark blue fruits, and its irregular whorled branches form flat, spreading tiers. M., 30c; L., 40c; X., 60c; S., 7 to 8 ft., \$3.50 to \$5.00.

Sanguinea (III). A shrub of spreading habit; purplish red branches, flowers greenish-white, followed by black berries. Desirable for massing. M., 30c; L., 40c; X., 60c.

Siberica (III). This has deep crimson bark and should be used in large groups for its winter effect. It shows off best when there are a number of plants together. Abundant clusters of small white blossoms are borne in early summer, followed by white fruit. M., 30c; L., 40c; X., 60c; S., 8 ft., \$5.00.

Stolonifera aurea. (Golden-barked Dogwood). Bright yellow bark in winter. Very effective when planted with red-barked varieties. L., 50c; X., 75c.

Stolonifera (III). Valued for its colored bark. Small white flowers. M., 30c; L., 45c; X., 60c.

COTONEASTER Buxifolia (Evergreen). A low, spreading shrub, with small hairy leaves very much like Buxus, but thickly interspersed with white flowers and later with crimson fruits. X., \$1.00; S., \$1.50.

CYDONIA Japonica (Pyrus). (Fire Bush). (III). One of the early spring flowering shrubs, the fiery crimson blossoms creating a grand display. M., 35c; L., 50c; X., 75c.

Japonica alba plena. Semi-double, white. M., 35c.

Gentlemen:

Received some time ago your very fine landscape plan for which I thank you very much. Have showed our plan to our friends and all have judged them as "Splendid."

When we are ready to plant, we will communicate with you. Thanking you, I am
Yours truly,
R. L. L.

Gentlemen:

The shrubs which you shipped on the 2nd inst. were received yesterday in fine condition and I must say I am more than pleased with their size. Should you have any of these large shrubs left in the fall I would be glad to have you advise me to that effect at that time.
St. Michaels, Md.
MRS. E.

HARDY FLOWERING SHRUBS—Continued.

DEUTZIA Candidissima (III). Strong growth. Double white flowers. M., 30c; L., 40c; X., 60c.

Crenata (III). Double rosette shape. white, tinged pink. M., 30c; L., 40c; X., 60c; S., 6 ft., \$2.50.

Fortunei (II). White flowers; quite distinct. M., 30c; L., 40c; X., 60c.

Lemoinei (I). Flower pure white. L., 50c; X., 75c; S., 4 ft., \$1.50.

Pride of Rochester (III). Double white, tinged with pink. M., 30c; L., 40c; X., 60c; S., 6 ft., \$1.00.

Scabra (III). Flowers white, tinged pink. M., 30c; L., 40c; X., 60c.

Watereri (I). Flowers delicate pink. A most beautiful variety. M., 30c; L., 40c; X., 60c.

Welsi (II). Double white flowers, one of the best. M., 35c; L., 50c.

ELEAGNUS Angustifolia (Oleaster). (III). A large shrub, sometimes of tree form, with long, narrow, silvery-green foliage. The flowers are yellow, followed by yellow fruit. M., 35c; L., 50c; X., 75c.

FORSYTHIA (Golden Bell). The Golden Bells stand in a class by themselves. Early in April they are a wealth of golden-yellow. The foliage is entirely healthy and the growth vigorous.

Fortunei (Fortune's Forsythia). (III). April. A spreading bush with dark, shining foliage, which has a purplish tint in autumn. Deep yellow flowers. The best of the Forsythias. M., 35c; L., 50c; X., 75c.

Intermedia (III). A tall, upright growing form. Good for shrubby border planting. Deep yellow flowers and fragrant. M., 30c; L., 40c; X., 60c; S., 6-7 ft., \$2.50.

Viridissima (Dark Green Forsythia). Shrub-like in growth, dark, rich foliage, yellow flowers and a very profuse bloomer. L., 35c; X., 50c.

HYDRANGEA Grandiflora Alba (II). Large clusters of white flowers. Nice young plants, 35c; larger, 50c; extra large, 75c to \$1.00 each.

Paniculata Grandiflora (II). July. August. Flowers white changing to pink and borne in immense pyramidal clusters. Will bloom same season planted. M., 35c; L., 50c; X., 75c.

TREE HYDRANGEA. We have very fine stock of this popular shrub grown in tree form. \$1.00; extra large, \$1.50.

KERRIA Japonica fl. pl. (II). Double yellow flowers. L., 50c; X., 75c.

Variegated (I). Green foliage edged with white. Yellow flowers. L., 50c; X., 75c.

LONICERA (Bush Honeysuckle). These are tall shrubs of upright growth valuable for their profusion of white and pink flowers and their crops of berries. They are among the most attractive of our early blooming shrubs.

Philadelphus are deliciously fragrant early spring flowering Shrubs and will grow in any good soil.

Grandiflora Rosea (III). Pink blossoms. L., 35c; X., 50c.

Ledebouri (II). May. Creamy, yellow flowers, fine. L., 35c; X., 50c.

Morrowi (II). May. White flowers, dark, green foliage, red fruit. L., 35c; X., 50c; S., 4-5 ft., \$1.00.

Tartarica (Bush Honeysuckle). May. Pink flowers orange-colored berries. L., 35c; X., 50c.

Tartarica Alba (White Tartarian Honeysuckle). (III). May. Has white flowers, bright berries. L., 35c; X., 50c.

PHILADELPHUS, Mock Orange. How deliciously fragrant are the spring blossoms of the Mock Orange! To many they bring pleasant thoughts of the coming flowers.

Avalanche (II). Very graceful variety, white flowers. L., 35c; X., 50c.

Cerdifolia. Single flower with large foliage. L., 50c; X., 75c.

Coronarius (Sweet Mock Orange). (III). The real old-fashioned form, white blossoms, yellow stamens. M., 30c; L., 40c; X., 60c.

Falconeri (II). Graceful shrub, white flowers. L., 35c; X., 50c.

Grandiflorus (III). Most vigorous grower and produces unusually large flowers, which are pure white. M., 30c; L., 40c; X., 60c; S., 75c.

Hydrangea paniculata Grandiflora.

Spirea Anthony Waterer.

Callosa Rosea (II). Rose colored flowers. M., 35c; X., 50c.

Fontenayii Rosea (II). June, July. Upright branches, pink flowers. M., 35c; L., 40c; X., 60c.

Marguerite (I). Rose-colored flowers. M., 30c; L., 40c; X., 60c.

Opulifolia Aurea (Golden Leaved). (III). Yellow tinted foliage and white flowers. M., 30c; L., 40c; X., 60c; S., 6 ft., \$1.00.

Reevesiana (II). May. A slightly drooping shrub covered in May with clusters of white flowers almost covering branches. M., 35c; L., 50c.

Salicifolia alba (II). June to September. Pure white flowers. M., 30c; L., 40c; X., 60c.

Semperflorens (I). Red flowers in corymbs. L., 35c; X., 50c.

Thunbergii (I). Fluffy masses of white flowers, fine foliage. L., 50c; X., 75c; S., 4 ft., \$2.50.

Van Houttei (II). The most beautiful of the Spirea. We redall no shrub that exceeds this in the graceful elm-like quality. The graceful branches, weighed down with a wealth of white blossoms, curve till they nearly touch the ground. It comes into bloom just before Decoration Day. M., 35c; L., 50c; X., 75c.

HARDY FLOWERING SHRUBS—Continued.

PHILADELPHUS Lemoinei Erecta (II). Creamy white, fragrant. L., 50c; X., 75c; S., 4-5 ft., \$1.00; S., 6 ft., \$2.00.

Nivalis (II). An excellent variety in every way, good growth and free flowering. M., 30c; L., 40c; X., 60c and 75c.

Speciosa (III). Showy white flowers. A tall grower and one which will give satisfaction wherever planted. M., 35c; X., 50c; 6-8 ft., \$2.50.

Sutzmanni. Large, showy white variety. L., 50c; X., 75c.

Zeyheri (II). June. White flowers with slight fragrance. A beautiful variety. M., 35c; L., 50c; S., 6 to 7 ft., \$2.50.

RHAMNUS Cathartica Well-known hedge plant, valued for extreme hardiness and strong growth. X., 50c; S., 75c.

RHUS Chionanthus Virginica (White Fringe). (III). White flowers. X., 50c; S., 6 ft., \$1.50.

Glabra (Smooth Sumac). (III). Leaves color brightly in autumn. Flowers followed by fruit. X., 50c; S., 7 ft., \$1.00.

Typhina Laciniata (Fern-leaved Sumac). (III). Brilliant foliage. Crimson fruit. L., 50c; X., 75c.

RIBES Aureum (I). Fragrant yellow flowers followed by dark brown fruit. M., 35c; X., 50c.

ROSA rugosa. The hardiest of all roses. They are eminently suitable for rose hedges or to be used same as shrubs. M., 50c; L., 75c.

SAMBUCUS Canadensis (White Elder). (III). Attractive flowers followed by clusters of purple berries. M., 25c; L., 35c.

Laciniata (III). Very valuable on account of its deeply cut foliage. M., 35c; L., 50c.

Nigra Aurea (Golden Elder). (III). Bright leaves of a golden-yellow. M., 25c; L., 50c.

SPIREAS. This is one of the largest groups of flowering shrubs and it is rarely that a group is planned without including some of its widely differing forms.

Anthony Waterer (I). May to September. Heads of crimson flowers. M., 40c; L., 50c.

Billardi (L). A strong grower, panicles of bright pink flowers in July and August. M., 25c; L., 35c; X., 50c; S., 75c.

Bumalda (I). May to September. Rose-colored flowers. M., 30c; L., 50c.

Callosa alba. Soft, white form; blooms all summer; dwarf. M., 30c; L., 50c.

Callosa Frobeli (I). June to September. Flowers dark, violet-red. M., 35c; L., 40c; X., 60c; S., 75c.

A Planting of Spirea Van Houttei.

HARDY FLOWERING SHRUBS—Continued.

SYRINGA Lilac (III). These old-fashioned shrubs are always popular. No matter how small the garden, everyone wants Lilacs.

Josekaea (Lilac). Valuable variety owing to its late blooming. Flowers are purple and very large, strong growth and good habit. M., 75c; L., \$1.00.

Rubra de Marley. Single, reddish purple. M., 75c; L., \$1.00.

Sougeana. Showy dark red panicles of bloom. M., 75c; L., \$1.00.

Vulgaris (Old-fashioned Lilac). The familiar species of all fine old gardens, with heart-shaped leaves and dense panicles of lilac flowers in May, still the most fragrant of any. M., 50c; L., 75c; X., \$1.00 to \$1.50.

Alba (Old-fashioned White Lilac). Similar to the former, with pure white, very fragrant flowers. M., 50c; L., 75c; X., \$1.00.

SYMPHORICARPOS Rubra (I). A graceful, low-growing shrub, with deep red berries clustered and crowded along its arching twigs. The branches take root, where they touch the ground and therefore are useful to hold steep banks and edge groups of tall shrubs. The only shrub to grow under large trees or in exceedingly dense shade and thrive. M., 25c; L., 35c; X., 50c.

Racemosus (II). Milk-white berries that contrast finely. M., 35c; L., 50c.

TAMARIX. (See cut). Attractive, tall-growing shrubs with fine feathery foliage like that of the Junipers. Splendid shrubs for seashore and general planting. Flowers profusely, and are usually a delicate pink color and excellent for cutting.

Africana (III). Tall-growing, irregular shrubs with feathery foliage and small, delicate pink flowers. L., 35c; X., 50c; S., 75c.

Symphoricarpos rubra.

Tamarix, a feathery-foliage Shrub of great value. Few appreciate the effectiveness of these most desirable Shrubs. They are in reality more attractive in foliage than any other Shrub grown. They also produce a profusion of blossoms, while not large, are delicate pink and attractive.

TAMARIX Gallica (III). June. Pinkish flowers, bluish-green leaves. M., 25c; L., 35c; X., 35c; S., 75c.

Hispida Aestivalis (III). July. Pink flowers. Its neat growth and blue-green foliage is very ornamental. L., 35c; X., 50c; S., 75c.

Indica (III). Pink flowers. One of the best Tamarix. M., 25c; L., 35c.

Odessana (III). Pink flowers in paniced racemes. M., 35c; L., 50c; X., 75c.

Parviflora Glauca (III). Silvery blue foliage, showy pink flowers. M., 25c; L., 35c; X., 50c; S., 75c.

Tetrandra Purpurea (II). Beautiful pink. M., 25c; L., 35c; X., 50c; S., 75c.

VIBURNUM. An important group of shrubs. Members of the genus are conspicuous for the good qualities needed in landscape planting. They all have good healthy foliage.

Lantana (III). White flowers, clusters of bright red fruit, changing to black. M., 35c; L., 50c; X., 75c; S., 5 to 7 ft., \$2.00.

Opulus (High Bush Cranberry). This handsome shrub has bright red fruits; are in some sections used as a substitute for the Cranberry. It has large, healthy leaves, and free from insect attacks. M., 35c; L., 50c; X., 75c.

Sterilis (Common Snowball). (II). Flowers white, borne in clusters. L., 50c; X., 75c.

WEIGELAS. Beautiful shrubs that bloom in June and July. The flowers are produced in so great profusion as almost entirely to hide the foliage.

Candida (III). Flowers pure white, borne all through the summer months. One of the most free blooming of all Weigelas. M., 35c; L., 50c; X., 75c.

Eva Rathke. A very profuse bloomer and continues to produce its dark carmine red flowers during the entire summer. M., 50c; L., 75c.

Nana Variegata (I). May. Pink flowers and variegated green and yellow foliage. M., 35c; L., 50c; X., 75c.

Rosea. The flowers which are rose-colored, are produced in such profusion as to completely cover the bush. Flowers in May and June. M., 35c; L., 50c; X., 75c.

Ornamental Hedge Plants

In producing a truly pleasing and attractive landscape effect the selection of a fence has always been a serious problem. Something is needed to outline the lawn clearly, but what to use is often a perplexing question. A hedge will beautify the plainest kind of grounds and adds immeasurably to fence with a fence that nature provides. The former is clumsy and contrasts rudely, while the hedge blends beautifully with the green lawn and surroundings.

Plant from 5 to 10 inches apart, depending in the compactness of hedge desired.

PRUNING AND CARE OF HEDGES. To secure a compact hedge and one of even growth, it is necessary, when the plants are first set out to prune back quite severely to an even height. This will encourage strong bottom growth and makes the foundation of a good hedge.

PRIVET Amurense (Amoor Privet). Glossy green foliage and hardy in all localities. Large size, \$2.50 per doz.; \$17.50 per 100; extra heavy plants, \$3.50 per doz.; \$25.00 per 100.

Ibota (Chinese Privet). A fine and hardy variety having very fragrant flowers. Nice plants \$2.50 per doz.; \$17.50 per 100; larger, \$3.00 per doz.; \$22.00 per 100; extra heavy plants, \$4.00 per dozen; \$25.00 per 100.

Ovalifolium (California Privet).

The most popular variety, has very fine foliage and is nearly evergreen. Not hardy in the extreme Northern States. Nice plants, \$1.50 per doz.; \$7.00 per 100; larger plants, \$2.00 per doz.; \$12.00 per 100; extra heavy plants, \$3.00 per doz.; \$15.00 per 100.

Regelianum (Regel's Privet). Absolutely hardy, and is sufficiently dense for hedge purposes even without trimming. Nice plants. \$2.50 per doz.; \$15.00 per 100; large size, \$3.50 per doz.; \$25.00 per 100; extra heavy plants, \$4.50 per doz.; \$30.00 per 100.

Ligustrum Ovalifolium—California Privet.

Evergreens

THUYA Arbor-Vitae. Bushy plants, used for screens and hedges. 2½ to 3 feet plants, \$7.50 per doz.; \$50.00 per 100.

PICEA Excelsa (Norway Spruce). For windbreaks and large hedges. 5 to 7 feet, \$50.00 per doz.; 8 to 9 feet, \$100.00 per doz. All dug with ball of earth.

Hardy Climbing Vines

Nothing lends such pleasing effect to wall or verandas as the judicious use of vines. The hardy vine is best adapted for covering an unsightly wall or for furnishing shade and ornament to verandas. With the advent of spring the tendrils are given new life and as the season advances they soon become a glorious veil of vernal verdure.

AMPELOPSIS Veitchii (Boston Ivy). The leaves of this beautiful climber change in the fall to the most vivid autumnal tints. Thrifty plants, 35c; heavy plants, 50c; extra select plants, 75c.

Engelmana. A very desirable variety, small, dense foliage. Colors beautifully in fall. Large size, 35c; extra heavy, 50c.

Quinquefolia (Virginia Creeper or Woodbine). Foliage assumes brilliant shades of yellow, crimson and scarlet in the fall. Large size, 25c; extra heavy, 35c to 50c.

BIGNONIA Grandiflora (Trumpet Creeper). Useful for covering unsightly places, stumps, rockwork, etc. Flowers orange-red color. Large plants, 35c; extra large, 50c.

Rubra. Red flowers. Very rare variety. 75c; extra large, \$1.00.

CELASTRUS Scandens (Bitter Sweet). Yellow flowers in June, followed with bright orange fruit. Large plants, 25c; extra large, 35c and 50c.

CLEMATIS Paniculata. Most popular vines grown and may be used wherever a vine is needed. Glossy green foliage and a mass of small white fragrant flowers in August and September. Thrifty plants, 35c; large size, 50c; extra heavy, 75c.

Virginiana (American White Clematis). Small white flowers. Excellent for covering rough banks and bare places. Will grow in very poor soil. Large field grown plants, 25c; extra large size, 35c to 50c.

LONICERA Brachypoda Aurea (Japan Golden-leaved Honeysuckle). Yellow and green leaves. Valuable for covering banks, bare places, etc. Flowers creamy white. Strong plants, 25c; \$2.50 per doz.; large size, 35c; \$3.50 per doz.; extra heavy, 50c.

Halliana (Hall's Japan Honeysuckle). Blooms constantly. Flowers white, changing to yellow; very fragrant. The best climber. 25c each; \$2.50 per doz.; larger, 35c; extra heavy, 50c.

LYCIUM (Matrimony Vine). Numberless bright red berries in fall. 25c; \$2.50 per doz.; larger, 35c; \$3.50 per doz.; extra heavy, 50c.

PERIPLOCA (Silk Vine). Purple-brown auxiliary clusters of flowers. 35c; extra large, 50c.

VITIS Aestivalis. Strong, tall-climbing vine with large foliage and small black berries. 25c; larger, 35c to 50c.

WISTARIA Chinensis. A most desirable vine which will thrive in almost any kind of soil or situation, and quite a rapid grower. Pendulous clusters of delicate violet-blue blossoms, richly perfumed. Large size, 40c; \$4.00 per doz.; extra heavy, 50c to 75c.

ENGLISH IVY. Dark, glossy green leaves and clings firmly to stone or brick walls. Thrives best in shady position and is hardy in nearly all localities. Nice young plants, 15c; large size, 25c; extra large, 35c to 50c.

HARDY CLIMBING SWEET PEAS. This is one of the most desirable hardy climbing plants attractive both in flower and foliage, producing clusters of large flowers the entire summer. As a porch climber or for covering fences, it is invaluable. It is perfectly hardy and will endure our severest winters. Fine mixed colors, red, white and pink. Nice thrifty plants, 20c; \$2.00 per doz.; larger size, 35c; \$3.50 per doz.

Tender Climbing Vines

COBEA SCANDENS. One of the most rapid growing climbing plants. Bears beautiful, deep, blue, bell-shaped flowers. 15c each; \$1.50 per dozen; larger, 25c each.

IPOMEA Grandiflora (White Moon-flower). Satiny white flowers. 25c; \$2.50 per doz.

VINCA VARIEGATA. Elegant low-growing trailing vine, leaves widely bordered with creamy white; always bright and pretty; extra nice for pots, vases, baskets, window boxes and rockeries. 15c each; \$1.00 per doz.; large size, 25c; \$2.50 per doz.; extra heavy, 35c; \$3.50 per doz.

Ornamental Shade Trees

Judicious planting of ornamental trees and shrubs enhances the value of real estate more than an equal amount of money invested in any other way. Make preparation to plant in their permanent place at the earliest date possible after receiving them. If shipment should arrive in a frozen condition do not unpack, but put in a cool place, free from frost, until perfectly thawed, when they may be unpacked and planted.

In planting make the hole wide enough so that when the tree is set out, you can spread out the roots, always avoiding as much as possible twisting and crowding the roots. Work the soil in carefully about the roots, leaving no cavities or air spaces, and pack the soil firmly.

SPECIAL NOTE.—In addition to the regular sizes listed, we can supply extra choice specimens which price varies according to variety and size, \$5.00 to \$25.00 each.

ACER (Maple). One of the most sturdy and desirable lawn trees. Avenues planted with them grow in grandeur each year thereafter. Our assortment and stock is fine.

Campestre. Leaves green, with small white spots. 4 to 5 ft., \$1.25; 6 to 8 ft., \$2.00

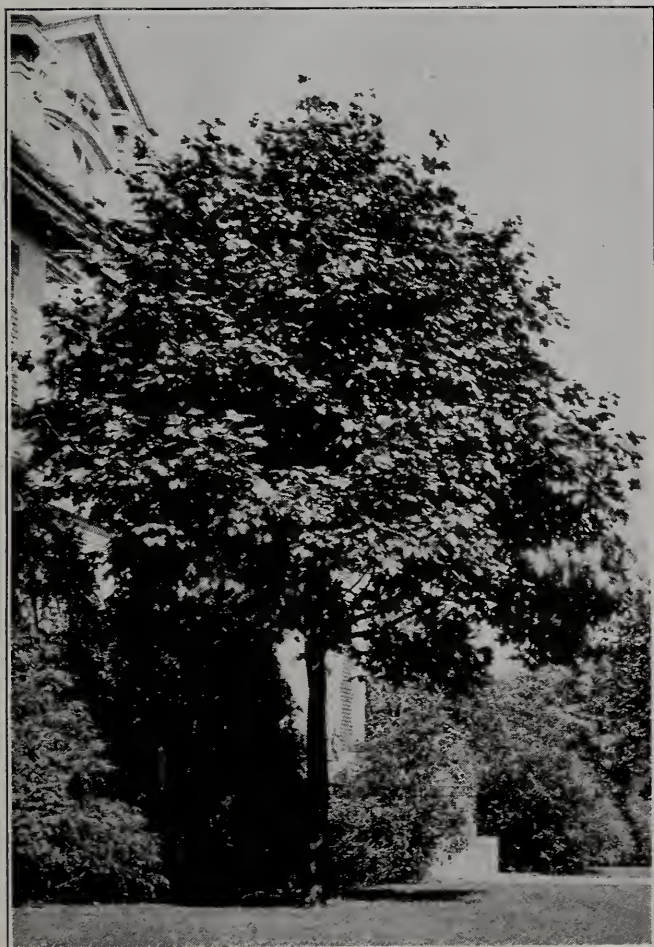

Dasycarpum (Silver Maple).

There is more foliage for the cost in this Maple than in any other tree. It is the best of the quick-growing trees for most soils and situations. 6 to 8 ft., \$1.00; 8 to 10 ft., \$1.50 to \$2.00; 10 to 12 ft., \$2.50 to \$3.00; fine specimens, \$5.00 to \$15.00 each.

Negundo (Ash-leaved Maple or Box Elder). A handsome tree. Retains its foliage until late, making it very desirable. 8 to 10 ft., \$2; 10 to 12 ft., \$2.50 to \$3; specimens, \$3.50 to \$5.

An Attractive Setting of Lawn Trees is Essential to Every Home and Grounds.

A Specimen Maple.

Platanoides (Norway Maple). Deep green leaves. One of the best. 8 to 10 ft., \$2.00 to \$3.00; 10 to 12 ft., \$3.50 to \$5.00.

Pseudo Platanus (Sycamore-leaved Maple). Foliage deep green on upper surface and purplish red underneath. 8 to 10 ft., \$2.00 to \$2.50; 10 to 12 ft., \$3.00 to \$4.00.

Rubrum (Red or Scarlet Maple). Foliage bright scarlet in autumn. 4 to 6 ft., \$1.50 to \$2.00.

Reitenbachi. A beautiful and striking variety because of its rich, changing foliage; decidedly purple. 8 to 10 ft., \$3.50 to \$4.00.

Saccharum (Sugar Maple). Used for shade on lawn or park plantings. 8 to 10 ft., \$2.50 to \$3.00; 10 to 12 ft., \$3.50 to \$4.00.

Schwedleri (Purple-leaved Maple). Leaves bright purplish crimson which changes to purplish green. 6 to 8 ft., \$2.00 to \$2.50; 8 to 10 ft., \$3.00 to \$4.00.

Wieri Laciniatum (Wier's Cut-leaved Maple). A very beautiful specimen tree, with delicately cut leaves and distinct, half-drooping habit. The leader grows rapidly upright, the slender lateral branches curve gracefully downward. Of noble proportions when undisturbed, yet patient under considerable pruning. 8 to 10 ft., \$1.75 to \$2.00; 10 to 12 ft., \$2.50 to \$3.00; heavy specimens, \$5.00 to \$15.00.

ÆSCULUS Hippocastanum (Horse Chestnut). Double white flowered. 8 to 10 ft., \$2.00 to \$2.50.

AILANTHUS (Tree of Heaven). An extremely rapid grower with palm-like leaves. Thrives in city lots exposed to gas and smoke, and in soils where most other trees perish. 8 to 10 ft., \$1.50 to \$2.00.

ALNUS Glutinosa (European or Common Alder). Foliage roundish wedge-shaped, wavy. Remarkably quick in growth. 8 to 10 ft., \$1.50 to \$2.00; 10 to 12 ft., \$2.50 to \$3.00; 12 to 14 ft., \$3.50 to \$5.00.

Incana (Gray-colored Alder). 10 to 12 ft., \$2.50 to \$3.00.

ARALIA Spinosa (Hercules' Club). A showy native, with broad, handsome cut leaves and huge clusters of small white flowers in July. Its winter effect is unique and handsome. 4 to 6 ft., 75c; 6 to 8 ft., \$1.00 to \$1.50; 8 to 10 ft., extra, \$2.00 to \$2.50; 10 to 12 ft., \$3.00 to \$3.50.

BETULA Alba (European White Birch). Of rapid growth, attractive foliage and beautiful, silvery-white bark. Droops just a little. Heavy specimens, \$3.50 to \$5.00.

Papyrifera (Paper or Canoe Birch). A native of America; forms a large tree; bark brilliant white, leaves large and handsome. 8 to 10 ft., \$2.50 to \$3.00; 10 to 12 ft., \$3.50 to \$5.00.

Pyramidalis. Columnar habit. Similar to the Lombardy Poplar. 8 to 10 ft., \$2.50 to \$3.00; 10 to 12 ft., \$3.50 to \$5.00.

Dear Sirs:

The shrubs, etc., were received and they are all living and in good condition. They were nicely packed and fresh when received.

Yours truly,
MRS. J. H.

Max Meadow's, Va.

ORNAMENTAL SHADE TREES—Continued.

CATALPA Bungei (Umbrella Tree). A small species forming a tree clothed with a dense mass of large, heart-shaped leaves; flourishes in all soils. It is grafted on stems from 6 to 8 feet high. It makes a handsome standard tree; very dense, symmetrical head. 1 to 2 year heads. \$2.00 to \$2.50; specimens, \$3.00 to \$5.00 each.

Bungei Dwarf. Stems from 2 to 3 feet with large 3 to 5 year heads. \$3.50 to \$5.00 each. Excellent where a dwarf tree for formal effects is desired.

Speciosa One of the most rapid growers. Large panicles of white flowers; very ornamental. 6 to 8 ft., \$1.00; 10 to 12 ft., \$1.50 to \$2.50; extra heavy specimens, \$3.50 to \$5.00.

CERASUS Padus (European Cherry). Pure white flowers followed by black fruit. Heavy specimens, 10 to 12 ft., \$3.50 to \$5.

CERCIS (Judas Tree). (Red Bud.) Reddish-purple flowers. 6 to 8 ft., \$2 to \$2.50.

CRATAEGUS Oxyacantha **Alba Flore Pleno** (Double White Hawthorn). When in bloom a mass of clustered double, rose-like white blossoms. This is the famous May Thorn of English gardens; spreading branches and stout spines. Very handsome. 5 to 6 ft., \$1.00 to \$2.00; 8 to 10 ft., extra, \$3.50 to \$5.00.

CYPRESS. Deciduous, see *Taxodium*.

EUONYMUS Europæus. A small tree of vigorous growth. Foliage is broad and deep green, turning to crimson in the fall. The flowers are followed by orange-scarlet fruits. 3 to 5 ft., \$1.00 to \$1.50.

FAGUS (Beech). These trees because of their elegant habit and delicate tracery of foliage, adapt themselves to the most ornamental situation. They transplant well with a ball of earth (as we handle them) and may be used for any purpose.

Asplenifolia Heterophylla (Fern-leaved Beech). Leaves deeply divided. 3 to 6 ft., \$2.50 to \$3.50.

Sylvatica (European Beech). A compact, long-lived tree having dense, dark green foliage. 3 to 5 ft., \$1.50 to \$2.00; 6 to 8 ft., \$2.50 to \$3.00.

Riversi (River's Purple Beech). Leaves very dark purple. 4 to 6 ft., \$2.00 to \$3.00; 6 to 8 ft., \$3.50 to \$5.00.

FRAXINUS Americana. A rapid growing, long-lived tree of fine proportions and a very desirable lawn tree. 8 to 10 ft., \$2.00 to \$2.50; 10 to 12 ft., \$3.00 to \$4.00.

Excelsior. A lofty tree with handsome foliage. 6 to 8 ft., \$1.50 to \$2.00; 12 to 14 ft., \$3.50 to \$5.00.

GYMNOCLADUS Canadensis (Kentucky Coffee Tree). Feathery foliage. 6 to 8 ft., \$1.00 to \$1.25; 10 to 12 ft., \$2.50 to \$3.50.

Fraxinus (Ash). An Excellent Lawn Tree of Fine Proportions.

GLEDITSCHIA Triacanthos (Honey Locust). A large, vigorous tree, with wide-spreading branches, feathery fern-like leaves, and a stout armament of thorns. Makes a fine defensive hedge. Bears long, pendent seed-pods, slightly twisted, with contents of a sweetish flavor. 6 to 7 ft., 75c to \$1.00; 8 to 10 ft., \$1.25 to \$2.00; 10 to 12 ft., \$2.50 to \$3.00.

JUGLANS, Sieboldiana (Japanese Walnut). Perfectly hardy, very ornamental. 6 to 8 ft., \$1.50 to \$2.00.

KŒLREUTERIA Paniculata (Japanese Varnish Tree). Small attractive tree, covered with yellow flowers. 8 to 10 ft., \$2.50 to \$3.50.

LARIX Europæa (Larch). A conifer with deciduous needle-like foliage. 5 to 7 ft., \$1.00 to \$1.50; 8 to 10 ft., \$2.00 to \$3.00.

LIQUIDAMBAR (Sweet Gum). Glossy green foliage changing to bright red. (Shipped with ball of earth). 7 to 8 ft., \$2.50 to \$3.50 each.

LIRODENDRON (Tulip Tree). Foliage dark green; creamy yellow flowers. 6 to 8 ft., \$1.50 to \$2.00; specimens, \$3.00 to \$5.00.

MAGNOLIA Alexandria. Purplish rose and white. 4 to 5 ft., \$2.50 to \$3.00; heavy specimens, 8 to 10 ft., \$5.00 to \$10.00. All dug with ball of earth.

Lenni. Color dark rose, center pearly white. 3 to 4 ft., \$3.00 to \$5.00. All dug with ball of earth.

Soulangeana. Flowers large, white tinged purple. 4 to 5 ft., \$3.50 to \$5.00; heavy specimen trees, 8 to 10 ft., \$7.50 to \$10.00; 10 to 12 ft., \$12.50 to \$15.00. All dug with ball of earth.

Speciosa. White, tinged pink. 4 to 5 ft., \$3.50 to \$5.00. Dug with ball of earth.

Stellata. Semi-double white star-like flowers. 2½ to 3 ft., \$2.50 to \$4.00. Dug with ball of earth.

MORUS Alba Tartarica (Russian Mulberry). A very hardy and low-growing type 3 to 5 ft., \$1.00; 10 to 12 ft., \$2.50 to \$3.00.

Pendula (Weeping Mulberry). Umbrella-shaped head, long drooping branches. 4 year heads, extra fine. \$3.00 to \$5.00.

PLATANUS Occidentalis (American Plane). Broad-spreading, round-topped, massive, and picturesque. Very effective in winter when its branches show almost as white as birch, and its mottled trunk of gray, green and brown is revealed. 8 to 10 ft., \$2.00; 10 to 12 ft., \$3.00 to \$4.00.

POPULUS Alba Bolleana. Similar to the well-known Lombardy. Its leaves are glossy green above, silvery beneath. Large heavy trees 5 to 6 ft., \$1.00 to \$1.50; 8 to 10 ft., \$2.00 to \$3.00.

Monilifera (Carolina Poplar). Unexcelled for quick growth and effect, its rapid growth giving an air of luxuriance to places where other trees appear starved. Showy and cheery from the constant movement of its glossy, silver-lined leaves, yet always casting a dense, cool shade. Large heavy trees, 4 to 5 ft., \$1.00 to \$1.50; 6 to 8 ft., \$2.00 to \$3.00; 10 to 12 ft., \$3.50 to \$4.00.

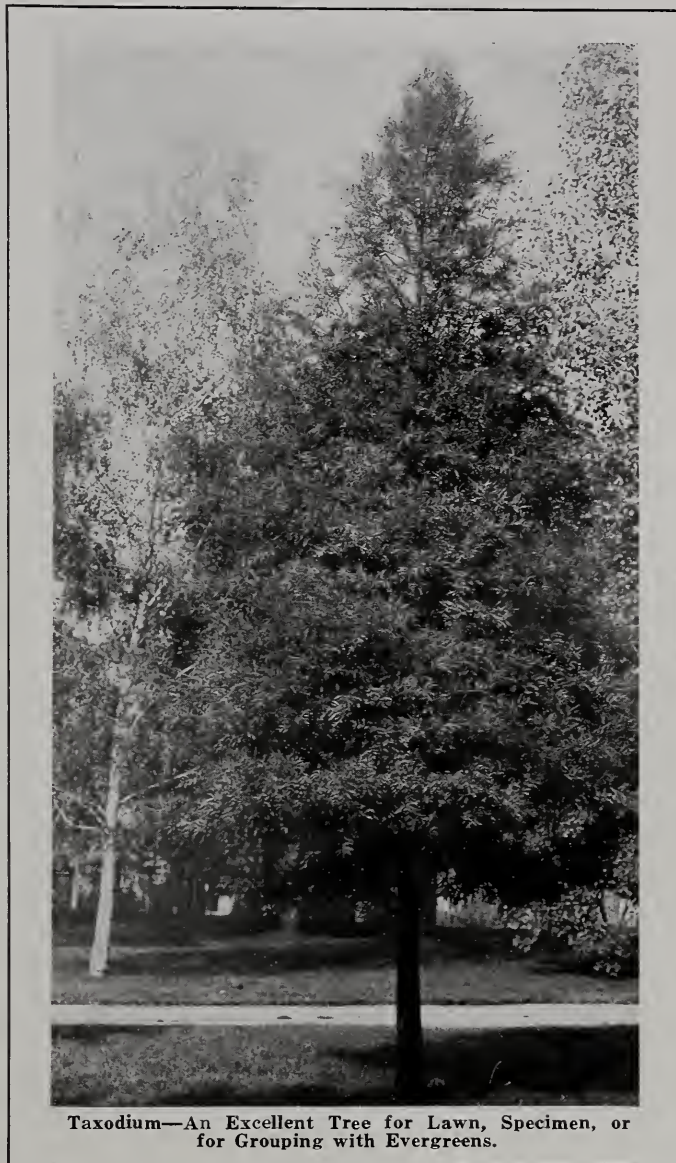

Fagus Sylvatica Riversi (River's Purple Beech).

ORNAMENTAL SHADE TREES—Continued.

- Populus Nigra, or Italica** (P. fastigiata). (Lombardy, or Italian Poplar). Of obelisk form, growing rapidly to a tall spire. Forms striking lawn groups, and is much used for tall screens. Always makes a striking feature in any landscape. 6 to 8 ft., \$1.00 to \$1.50; 8 to 10 ft., \$2.00 to \$2.50; 10 to 12 ft., \$3.00 to \$4.00.
- PTELEA Trifoliata** (Hop Tree). (D.) A round-headed, loosely-branched tree with numerous clusters of light green fruit pods. Prefers a shaded position and moist soil. 4 to 6 ft., \$1.00 to \$1.50.
- PYRUS Floribunda** (Flowering Crab). A large shrub or small tree, with rose-red flowers borne in great profusion in May. The fruit is red and very small, on long stems. Heavy specimens, \$5.00 to \$7.50 each.
- QUERCUS Coccinea** (Scarlet Oak). Foliage purplish crimson in autumn. 6 to 8 ft., \$2.50 to \$3.00; 10 to 12 ft., \$5.00 to \$7.00.
- Palustris** (Pin Oak). The most beautiful of all oaks. 8 to 10 ft., \$5.00 to \$6.00.
- Robur** (English Oak). Massive spreading stature. 8 to 10 ft., \$3.50 to \$5.00.
- Rubra** (Red Oak). Foliage changes to bronze red in autumn. 8 to 10 ft., \$3.50 to \$5.00.
- PSEUDACACIA** (Black Locust). A familiar tree of rapid growth that thrives in any place. The pinnate foliage is light and airy. In June the tree is fragrant with panicles of white flowers, and very ornamental. Its growth is rapid. 8 to 10 ft., \$1.50 to \$2.00; 10 to 12 ft., \$2.50 to \$3.00.
- SALISBURIA Adiantifolia** (Ginkgo or Maiden Hair Tree). Fern-like foliage resembling Maiden Hair Fern. 8 to 10 ft., \$3.00 to \$5.00.
- SALIX** (Willows). This species of trees do best planted in low, moist soils, along the banks of streams or ponds, and where low-branching trees are desired. We offer the following varieties in bushy plants branched from the ground. We can supply most varieties in standard or tree form if desired.
- Babylonica**. Branches drooping gracefully. 6 to 8 ft., \$1.50 to \$2.
- Pentandra** (Laurel-leaved Willow). Dark green, glossy leaves. 5 to 6 ft., \$1.00 to \$1.50.
- Vitellina Aurea**. Highly effective, with its golden bark. 4 to 5 ft. 75c to \$1.00.

Ulmus (Elm). The Most Satisfactory Tree for General Planting, Lawns, Avenues, or Anywhere.

Taxodium—An Excellent Tree for Lawn, Specimen, or for Grouping with Evergreens.

- SORBUS Aucuparia** (European Mountain Ash). Orange-colored berries midsummer until frost. 6 to 8 ft., \$1.25 to \$1.50; 8 to 10 ft., \$2.00 to \$3.00.
- Aucuparia pendula** (Weeping Mountain Ash). Slender drooping branches and bright red berries. 2 to 3-year heads, \$2.50 to \$3.50.
- SOPHORA Japonica** (Japan Pagoda Tree). Small, shining leaves. Clusters of snowy-white flowers. 3 to 4 ft., \$1.00 to \$1.50.
- TAXODIUM** (Deciduous Cypress) **Distichum**. The famous Southern or Bald Cypress is perfectly hardy even in the North, and grows well on dry or wet soil. It is a most beautiful and stately tree, pyramidal in shape. 4 to 6 ft., \$2.50 to \$3.00; 6 to 8 ft., \$3.50 to \$5.00; 8 to 10 ft., \$6.60 to \$8.00. All dug with ball of earth.
- TILIA** (Linden). **Americana**. Splendid form, large stature. Rapid growing and hardy tree, affording a dense shade. 10 to 12 ft., \$2.50 to \$3.00; heavy specimens, \$5.00 to \$7.50.
- European**. Fine symmetrical habit; has large, glossy, deep green leaves. Fine for lawn. A little more compact than the American. 8 to 10 ft., \$2.00 to \$2.50; heavy specimens, \$3.50 to \$5.00.
- ULMUS Americana** (Elm). No finer tree grown. Good for avenue or suburban planting. Forms a vase-shaped tree, with irregularly shaped leaves. 6 to 8 ft., \$1.00 to \$1.50; 8 to 10 ft., \$2.00 to \$2.50; 10 to 12 ft., \$3.00 to \$5.00; specimens, \$6.00 to \$10.00.
- Campestris** (English Elm). Desirable for lawn or landscape. 8 to 10 ft., \$2.00; 10 to 12 ft., \$2.50 to \$3.00; specimens, \$5.00 to \$7.50.
- Latifolia**. The best for street and avenue planting; large leaves; compact and upright in habit. Golden in autumn. 8 to 10 ft., \$2.00 to \$2.50; 10 to 12 ft., \$3.00 to \$3.50.
- Plumosa pyramidalis**. An elegant, pyramidal-growing Elm. Rare. 10 to 12 ft., \$3.50 to \$5.00; specimens, \$6.00 to \$10.00.
- Scabra Pendula** (Camperdown Weeping Elm). A picturesque form. Heavy specimens only, \$5.00 to \$15.00.

Hardy Ornamental Evergreens—Conifers

Wagner Park Evergreens have been several times transplanted. They are shipped to you with ball of earth and an abundance of roots, carefully burlapped.

From out the thousands of specimens of all sizes and shapes that adorn the landscape at Wagner Park, there can easily be selected trees, bushes and shrubbery that will furnish the desired background for any home, park or public ground. The prices are altogether moderate. We list here only the choicest and most hardy varieties.

Special Note

Our soil is especially adapted to digging our Evergreens with a ball of earth, leaving the roots undisturbed, thus assuring successful transplanting at almost any season of the year.

For those who cannot personally visit Wagner Park and see the glorious profusion of foliage, the inexhaustible variety of color tones, the graduations of shade between the dark greens of some varieties and the bluish tints of other species of evergreens, the service of our Landscape Artists will prove especially helpful. We can select trees and shrubs, conifers and deciduous plants that will answer all the utilitarian purposes of windbreaks, border planting, shade production, and screens for unsightly vistas, no less than those purely aesthetic considerations of garden, lawn, and terrace adornment.

ABIES Balsamea (Balsam Fir). An ornamental native of our forests that is very hardy; has dark green needles of pleasant fragrance; grows rapidly when young and does well in moist soils. 4 to 6 ft., \$4.00; 7 to 8 ft., \$6.00; 8 to 10 ft., \$9.00.

A planting of Pines and Spruces—*Picea Excelsa* is an exceptionally good variety for general planting and will grow in any ordinary soil.

Concolor (Colorado Silver Fir). 30 to 40 feet. A beautiful and graceful evergreen with soft, silvery-green foliage. Very symmetrical in form. 7 to 9 ft., \$15.00.

Nordmanniana (Nordman's Fir). This massive Fir, from the Crimean Mountains, is of symmetrical form, vigorous and quite hardy. Its foliage is massive, dark green shining above and slightly glaucous below, rendering it a very handsome tree throughout the year, considered here and in Europe as one of the finest of Firs. 2 to 3 ft., \$4.50; 4 to 5 ft., \$7.50; 6 to 8 ft., \$12.50; 8 to 10 ft., \$16.00.

Nobilis Glauca (Noble Silver Fir). A beautiful conifer whose foliage is a silvery-blue. It is particularly handsome in the spring. 3 to 4 ft., \$5.00 to \$7.00.

PINUS Austriaca (Austrian Pine). A tall, massive tree with spreading branches heavily plumed with long, stiff, dark green needles. A useful species along the coast, and grows equally well inland. Popular for groupings or as specimens. 4 to 5 ft., \$3.50 to \$5.00; 6 to 8 ft., \$7.50 to \$10.00; 9 to 12 ft., \$12.50 to \$15.00.

Banksiana (Jack Pine). Strong grower and hardy. 5 to 7 ft., \$3.00 to \$5.00.

Mughus (Mugho Pine). This unique alpine species forms a dark, dome-shaped bush, broader than its height, and sometimes almost prostrate. Suitable for lawn specimens or evergreen groups, terraces, rockeries, and seaside plantings. 5 to 6 ft., \$10.00.

Strobus (White Pine). For specimen, group or mass planting. It is extensively used as well as for shade and shelter-belts. The needles are soft and bluish-green. 4 to 5 ft., \$5.00 to \$7.50; 6 to 8 ft., \$8.00 to \$10.00.

Sylvestris (Scotch Pine). A strong grower with spreading branches and short, stiff, bluish-green needles. Its rapid growth makes it suited for temporary effects, though it is by no means to be despised for permanent ones. Splendid for mass plantings, screens, shelter-belts, and seashore uses. 3 to 4 ft., \$3.00 to \$4.00; 5 to 7 ft., \$5.00 to \$6.00; 8 to 10 ft., \$7.50 to \$10.00; 10 to 12 ft., \$12.00 to \$15.00.

PSEUDOTSUGA Douglasii (Douglas's Spruce). It is similar to the spruce and is a very desirable and beautiful tree for either collective or individual planting. It is a western tree of erect habit and growth. Hardy in the coldest places. 3 to 4 ft., \$4.00 to \$5.00.

Showing how our evergreens are handled without disturbing the roots.

Gentlemen:

For the past three years I have planted shrubs every year from your nursery. Last year I put out 25 shrubs, 12 evergreens and a dozen and a half roses; all lived and grew wonderfully. Isn't that a splendid record? I have always had excellent success with your shrubs and roses.

Sylvan Grove, Kans.

Yours truly,
MRS. H. S.

HARDY ORNAMENTAL EVERGREENS—Continued.

PICEA Alba (White Spruce). One of the very best conifers, especially for cold climates. Compact, upright-growing, long-lived, retaining its branches to the ground, aromatic, drought-resisting; varies in color from light green to glaucous blue. 2 to 3 ft., \$3.00 to \$4.00; 3 to 5 ft., \$5.00 to \$7.00.

Black Hills. 2 to 3 ft., \$5.00.

Engelmanna Glauca. Resembles the familiar Blue Spruce. 2 to 3 ft., \$4.00 to \$6.00; 4 to 6 ft., \$7.50 to \$10.00.

Excelsa (Norway Spruce). (See cut). This, our common spruce, embraces more desirable features than any of the others. It is rapid growing, does well in most soil and withstands the bleak and cold winds of winter. 2 to 3 ft., \$1.00 to \$2.00; 4 to 5 ft., \$3.00 to \$5.00; 6 to 7 ft., \$7.50 to \$10.00; 8 to 10 ft., \$12.50 to \$15.00; 12 to 15 ft., \$17.50 to \$20.00.

Excelsa Inversa (Weeping Norway Spruce). A very remarkable form. 4 to 5 ft., \$5.00 to \$7.50; 6 to 8 ft., \$10.00 to \$12.00.

Orientalis. Its habit is symmetrical and compact. 2 to 3 ft., \$3.50; 4 to 5 ft., \$5.00 to \$7.00.

Pungens Glauca (Colorado Spruce). The original form of the new famous Colorado Blue Spruce. The foliage of this tree is quite blue. It is a strong, hardy grower in any soil. 2 to 3 ft., \$4.00 to \$5.00; 4 to 5 ft., \$7.50 to \$10.00.

Pungens Glauca Kosteriana (Koster's Blue Spruce). This is the most beautiful of the evergreen family. The rich, silvery-blue coloring of the foliage is a rare bestowal of Nature and one she has saved for these grand trees. It will withstand the coldest climate, is a vigorous grower and will do well in any locality. For color effect nothing equals this beautiful variety. 3 to 4 ft., \$5.00 to \$7.50; 5 to 6 ft., \$10.00 to \$12.00; 8 to 10 ft., \$20.00 to \$25.00; 12 ft., \$30.00.

Excelsa Pyramidalis. A spire-like form with very erect branches. 2 to 3 ft., \$3.50 to \$5.00.

RETINISPORA Filifera (Thread-Branched Retinispora). Of pyramidal outline with drooping deep green foliage. 3 to 4 ft., \$8.50; 5 to 6 ft., \$12.50.

Pisifera. Of more open growth than the Obtusas, growing sometimes to a large tree, 50 to 60 feet high, with erect branches, pendulous at the tips; foliage feathery, light green, glaucous beneath. 4 to 6 ft., \$7.50 to \$10.00; 7 to 8 ft., \$12.50 to \$15.00.

Plumosa. Main stems are erect but side shoots assume a plume-like arrangement. The branches are slender and pliable, imparting a feathery appearance. Delicate, glaucous foliage. 10 to 12 ft., \$17.50 to \$20.00; 12 to 14 ft., \$22.50 to \$25.00.

THUYA Ellwangeriana (Tom Thumb). In many respects it is similar to the Retinispora, and seems to be the connecting link between Arbor-Vitae and that family. 1 to 1½ ft., \$1.00; 4 to 5 ft., \$7.50 to \$10.00.

Globosa (Globe Arbor-Vitae). A low compact form with bright green foliage. 1½ ft., \$2.50 to \$3.00.

Occidentalis (American Arbor-Vitae). Strong vigorous grower. Its upright slender growth makes it desirable for formal planting and for variety in grouping. Its ability to withstand shearing makes it unsurpassed for hedges. 2 to 3 ft., \$2.50 to \$3.00.

Orientalis (Biota). (Chinese Arbor-Vitae). Bushy and upright in growth and very attractive foliage arranged in flat, vertical leaves. 2 to 3 ft., \$3.00 to \$3.50; 6 to 8 ft., \$7.50 to \$10.00.

Picea Excelsa.

Pyramidalis (Pyramidal Arbor-Vitae). Its compact slender column of dark green is ornamental as a lawn specimen for backgrounds and in groupings. 1½ to 2 ft. **Rosenthalii.** Dark green, dense foliage, compact grower. 1½ to 2 ft., \$2.50 to \$3.00.

Siberica (Siberian Arbor-Vitae). Globular shape, handsome and hardy. 3 to 4 ft., \$5.00 to \$7.00.

THUYOPSIS Borealis Glauca. Pyramidal in habit; glaucous foliage. 2 to 3 ft., \$3.50 to \$4.00; 5 to 6 ft., \$5.00 to \$7.50.

TSUGA Canadensis (Hemlock Spruce). A medium sized tree with pendulous branches whose graceful character is in striking contrast to some of the formal conifers. This is a rapid grower and very hardy. 2 to 3 ft., \$5.00; 4 to 5 ft., \$10.00; 6 to 7 ft., \$13.50.

USE NORWAY SPRUCE for a continually smiling landscape, so bright and cheerful are they in spring, summer and winter, when other plants and trees are gray and uninviting. Their spire-like crowns lend a peculiar charm to the landscape, are admirable as avenue trees, and for wind-breaks as well as for the small lawn when used for entrances, either planted in open ground or in tubs. Our trees are grown for successful transplanting; our custom of frequent root-pruning brings about a system of fibrous roots which makes these trees profitable investments.

We know of no evergreen more hardy and none to thrive in such a variety of soils. A specimen or two of the kind we furnish add dignity and beauty to any home and grounds. Our plants are strong and vigorous, having been several times transplanted, and are dug with a ball of earth, practically insuring success.

Trained Specimen Trees—Boxwood

For decorative purposes these stately evergreen trees cannot be excelled. Nothing can approach them as effective plants for decorating entrances, halls or piazzas. For Italian and formal gardens or enclosed court, they are largely used, and always in keeping with such surroundings.

BOXWOOD—Pyramidal Form

These are all especially grown pyramidal form and are unusually desirable and effective for entrances, hall, piazzas, or anywhere on the lawn. May be planted in open ground or may be used effectively planted in our Colonial Plant Kettles or Plant Boxes. Try a pair or two. We know you will be pleased.

Fine specimens, 3½ to 4 ft., planted in mission boxes, \$9.00 each, \$17.00 per pair.

Fine specimens, 4 to 4½ ft., planted in mission boxes, \$11.00 each, \$20.00 per pair.

Fine specimens, 4½ to 5 ft., planted in mission boxes, \$14.00 each, \$26.00 per pair.

Fine specimens, 5 to 5½ ft., planted in mission boxes, \$16.50 each, \$30.00 per pair.

BOXWOOD—Bush Form

These are left to take their natural form of growth, being untrimmed are very desirable for hedges and are extensively used for foundations, planting window boxes, etc. Also suitable for formal effects, entrances, etc., when planted in our Colonial Kettles or our Plant Boxes.

Nice bushy plants, 8 to 10 inches, 50c each, \$5.00 per dozen.

Nice bushy plants, 10 to 12 inches, 75c each, \$8.00 per dozen.

Nice bushy plants, 12 to 15 inches, \$1.00 each, \$11.00 per dozen.

Pyramid Box Tree, Planted
in Mission Plant Box.

Fruit Department

No home grounds are complete without at least a few fruit trees. Nothing is more beautiful in early spring than a fruit tree full of bloom, besides the great satisfaction derived from picking fine, ripe fruit from trees in your own yard. Our list of varieties is somewhat limited but all offered below is the very choicest and best for general planting.

Rome Beauty.

APPLES—Early Varieties.

- EARLY HARVEST.** Medium, pale yellow, tender, juicy.
- YELLOW TRANSPARENT.** Earliest and best; white, tender, juicy, sprightly, sub-acid.

- ASPARAGUS, Conover's Colossal.** A standard variety of large size, tender and excellent quality. Good, strong roots. 50 cents per dozen; \$3.00 per 100. Heavy clumps, \$2.50 per dozen.

Roses

Most Glorious Flower of the Garden

The rose is a source of interest to all flower lovers everywhere, and a necessity to every well-planted garden. The demand for good garden roses is greatly on the increase. People are beginning to appreciate the value of introducing roses more boldly in with general plantation. At the same time the "rose garden" is extending its appeal.

One may use roses profitably anywhere, often in very restricted space. They have manifold uses as practical climbers, covering ugliness with beauty, covering bare banks and walls with color and grace.

We send out only strong, well-rooted plants, in perfect condition for "taking hold" vigorously in alien soil.

Our collection of free-blooming hardy roses, such as we urge for general selection, is second to none. This list includes varieties adapted to every purpose, house walls, trellis, pergolas, rose groups, etc.

We place our knowledge of roses at your disposal, being very glad to help you, when it is desired, in the selection of varieties and offering information on the subject of successful rose culture. We make special designs also of rose gardens, rose walks, etc., etc.

X-tra Size Roses

Where you see the "X" you will find one of the choicest varieties and in extra large size plants. WAGNER PARK ROSES grow to perfection everywhere, but special attention is called to our Extra large size plants which are marked with an "X" preceding the name, indicating the quality of the largest size. These varieties have been given special attention, and we have obtained some very fine, heavy plants of them.

Wagner Park Famous Cochet Roses

The real Rose lover cannot afford to miss these particularly famous Cochet Roses. The three varieties we offer are not surpassed by any others in beauty of flowers and productiveness. They are constantly in bloom and are hardy in all localities, except the extreme north, where protection and mulching is necessary to bring them through some winters we frequently experience.

x Maman Cochet Red An exceedingly beautiful and splendid Rose for general planting. Very vigorous and healthy, throwing up strong shoots, and producing great masses of beautiful blossoms, and this is continuous throughout the entire season. Flowers are very large, fully double, and sweetly scented. Color a bright rose-red, elegantly shaded. A most valuable everblooming variety. 1-yr. size, 25c; larger size, 35c; 2-yr. size, 60c; X-tra size, 75c.

x Maman Cochet Pink A deliciously sweet-scented Rose and a most vigorous grower. The flowers are superb and we consider it one of the choicest and most beautiful roses grown. The buds are long and pointed and flowers are of enormous size, very full and double. The color is a rich pink, elegantly shaded with rose and crimson. An excellent bedding variety. Very free to bloom, even as a pot plant for the house. 1-yr. size, 25c; large size, 35c; 2-yr. size, 60c; X-tra size, 75c.

x Maman Cochet White A remarkable free-blooming variety equal to Maman Cochet Pink in every particular. The blossoms are large, fully double, and a pure white in color, very fragrant, and should be included in every Rose collection. 1-yr. size, 25c; larger size, 35c; 2-yr. size, 60c; X-tra size, 75c.

Special "A" Offer	1 Maman Cochet Red	} 1-yr. size, 60c. Large size, 90c. 3 of each, larger size, \$2.50.
	1 Maman Cochet White	
	1 Maman Cochet Pink	

Two Marvelous Hardy Everblooming Roses

Special Offer "A-2"

1 Gruss an Teplitz, } 1 President Taft, }	1 year size, 40 cents larger size, 60 cents
--	--

3 of Each, Larger Size \$1.50

x Gruss an Teplitz (Crimson Hermosa). This grand Rose has proven one of the best and most valuable hardy crimson ever-blooming Roses for garden planting ever introduced. The color is dark, rich crimson, passing to velvety, fiery red, the brightest colored Rose we know. Flowers large, full and sweet; blooms constantly, throwing up fresh buds and flowers the whole growing season. 1-yr., 25c; larger size, 35c; 2-yr., 60c; X-tra size, 75c.

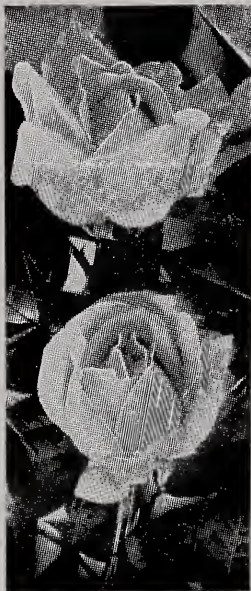

x President Taft This is undoubtedly the finest bedding Rose yet introduced. The flowers are double, very sweet-scented, and are of deep pink color. They are free from disease. 1-yr. size, 25c; larger size, 35c; 2-yr. size, 60c; X-tra size, 75c.

OUR "LARGER SIZE" ROSES ARE VIGOROUS AND FINE FOR GENERAL PLANTING AND WILL PRODUCE RESULTS THE FIRST SEASON.

Hardy Everblooming Roses—Hybrid Teas

Our One-Year Size of Most Varieties Will Bloom Profusely the First Season.

This is a class of roses for general planting everywhere. The great advantage claimed for them is that they combine the hardiness of the Hybrid Perpetual with the constant blooming qualities and delicious fragrance of the Tea Roses. These varieties we list include only the choicest, and your surprise will come from the quantities of beautiful blossoms they produce; excellent for Southern and Pacific Coast gardens. Hardy in all localities and without protection, except in the Northern States, where a mulch and protection will be necessary.

Kaiserine Augusta
Victoria.

British Queen. Fine white. 1-yr., 25c; larger size, 35c.

Champion of the World. Lovely clear deep pink. 1-yr., 25c; larger size, 35c.

Gladys Harkness. Salmon pink. 1-yr., 25c; larger size, 35c.

Helen Gould. Rosy crimson. 1-yr., 25c; larger size, 35c; 2-yr., 60c.

J. L. Mock. Color light red, shaded pink 1-yr., 25c; larger size, 35c.

x Kaiserine Augusta Victoria This is the finest and largest white Rose for summer blooming. The flowers are pure white and ideal in form. 1-yr., 25c; larger size, 35c; 2-yr. size, 60c; X-tra size, 75c.

x Killarney, Double White. Waxy-white flowers. 1-yr., 25c; larger size, 35c; 2-yr., 60c; X-tra size, 75c.

La France (Pink). Color peach blossom clouded rosy pink. 1-yr., 25c; larger size, 35c.

La France (Red). Lovely deep rose. 1-yr., 25c; larger size, 35c.

La France (White). Pearly white, shaded soft rose. 1-yr., 25c; larger size, 35c.

x Mrs. R. B. Cant

A healthy, vigorous grower, producing great masses of splendid roses the whole growing season. Flowers are perfectly double and deliciously sweet. Color, bright rose red, elegantly shaded. 1-yr., 20c; larger size, 35c; 2-yr., 50c; X-tra size, 60c.

Hardy Everblooming Dwarf Bedding Roses

Used extensively for edging beds of other roses. They are compact, bushy and produce immense trusses of semi-double flowers from spring until frost.

Annie Muller. Bright pink. 1-yr., 25c; larger size, 35c.

Catherine Zeimet. White flowers. 1-yr., 25c; larger size, 35c.

x Jean D'Arc. Very free flowering. Flower trusses very large and a pure milk white. 1-yr., 25c; larger size, 30c; 2-yr., 50c; X-tra size, 60c.

Madam Taft. Color dark red. 1-yr., 25c; larger size, 35c.

x Mrs. W. Cutbush. A new dwarf rose. Color light pink, yellowish center. 1-year, 20 cents; larger size, 30 cents; 2-year, 50 cents; X-tra size, 60c.

The Orleans Rose. Geranium red, shaded rose. 1-yr., 20c; larger size, 35c.

Wagner Grown Roses For Southern and Pacific Coast States TEA OR EVERBLOOMING ROSES.

This class of Roses is celebrated the world over for their delicious fragrance and the exquisite forms and rich, charming tints of their beautiful flowers. They are without question the most profuse of all being in flower throughout the entire growing season, especially grown for the Southern and Pacific Coast States, although they may be planted in the Northern States but must be protected over winter. Our list comprises only the best and choicest varieties.

Bridesmaid. Color, rich pink. 1-yr., 15c; 2-yr., 25c; larger size, 40c.

x Clothilde Soupert. Double, pearly white; center pink. 1-yr., 25c; larger size, 35c; 2-yr. size, 50c; extra size, 60c.

Duchess de Brabant. Shell-pink. 1-yr., 25c; larger size, 35c.

Etoile de Lyon. A rich, golden-yellow. 1-yr., 25c; larger size, 35c.

x Lady Hillingdon. Apricot-yellow, shading to orange. 1-yr., 25c; larger size, 35c; 2-yr., 50c; X-tra size, 60c.

Marie Lambert. Creamy white, shaded soft, rosy blush. 1-yr., 25c; larger size, 35c.

Melody. Yellow, deepening to apricot-center. 1-yr., 25c; larger size, 35c.

x Mad. Abel Chatenay. Very double, with slightly recurved petals. Color, rosy carmine, shaded salmon. 1-yr., 25c; larger size, 35c; 2-yr., 60c; X-tra size, 75c.

Mad. Caroline Testout. Satiny rose, deepening in center to clear red. 1-yr., 15c; 2-yr., 35c; X-tra size, 60c.

x Mad. Jules Grolez. The color is a distinct and charming shade of cherry red, free blooming and in every way a splendid garden Rose. 1-yr., 25c; larger size, 35c; 2-yr., 60c; X-tra size, 75c.

x Mad. Schwaller. Color, deep, rosy flesh, deepening on edge of petals. 1-yr., 25c; larger size, 35c; 2-yr. size, 60c; X-tra size, 75c.

Mrs. Aaron Ward. A fine, strong grower and free of bloom. Buds are deeply cupped, the open flowers delightfully attractive. Color, deep golden orange, shading outward to creamy yellow. 1-yr., 25c; larger size, 35c.

Mrs. D'Graw. Coral pink. 1-yr., 25c; 2-yr., 30c; larger size, 35c.

x Sunburst. The color is orange-copper and golden yellow. 1-yr., 30c; larger size, 40c; 2-yr., 60c; X-tra size, 75c.

x Wellesley. Rose pink, reverse petals silver rose. 1-yr., 25c; larger size, 35c; 2-yr., 60c; X-tra size, 75c.

x Wm. R. Smith. Creamy white, flesh pink tips, buff at base. 1-yr., 25c; larger size, 35c; 2-yr., 60c; X-tra size, 75c.

Our "Larger Size" Mrs. R. B. Cant will produce such roses as these the first season. All our "larger size" plants are good strong sturdy plants.

Hybrid Perpetual Roses

MOST BRILLIANT CLASS BECAUSE OF THEIR LARGE, SWEET,
BRILLIANT COLORED FLOWERS.

The best class to plant, especially in the Northern States, owing to their hardiness. While they particularly need no protection, a good mulch for winter after the wood is well ripened will be beneficial. While they are called Perpetual, they are not constant bloomers, except those so noted, but they produce the finest and most exquisite flowers of all hardy Roses. We list only the choicest varieties and in heavy two-year-old plants and X-tra large sizes.

- x Alfred Colomb. Double and full; color, bright carmine crimson. 2-yr., 60c; X-tra size, 75c.
- x Anna De Diesbach. Brilliant rose color. Delightfully fragrant. Price, 2-yr., 60c; X-tra size, 75c.
- x Frau Karl Druschki. Fine snow-white, free from any yellow or rose tints. Large 2-yr., 75c; X-tra size, \$1.00 each.
- x Gen. Jacqueminot. One of the most satisfactory to grow. A rich crimson scarlet. Large 2-yr., 75c; X-tra size, \$1.00 each.
- x Magna Charta. The color is a beautiful bright pink, suffused with carmine. Large 2-yr., 75c; X-tra size, \$1.00 each.
- x Mme. Gabriel Luizet. Pale pink; a delicate and beautiful tint; very sweet. 2-yr., 60c; X-tra size, 75c.
- x Paul Neyron. Long, stiff, thornless stems, with cup-shaped flowers. Bright rose pink. Large 2-yr., 75c; X-tra size, \$1.00 each.
- x Prince Camille de Rohan. Dark velvety crimson, changing to maroon. 2-yr., 60c; X-tra size, 75c.
- x Ulrich Brunner. Shell-shaped petals. Color, cherry red. Large 2-yr., 75c; X-tra size, \$1.00 each.

Hardy Climbing Roses

American Pillar. Carmine rose, with cream variegation. 1-yr., 20c; 2-yr., 40c; X-tra size, 60c.

x Baltimore Belle. Pale blush, variegated carmine-rose and white. 1-yr., 15c; 4 for 50c; 2-yr., 25c; X-tra size, 35c.

Climbing American Beauty. Lovely and fragrant as the bush form. Color, beautiful rose red. 1-yr., 25c; large size, 35c.

A Hybrid Perpetual Rose.

Climbing Roses are fine for Arbors.

- x Crimson Rambler. Crimson, semi-double. 1-yr., 25c; 2-yr., 40c; X-tra size, 60c.
- x Dorothy Perkins. Beautiful shell pink. Deliciously scented. 1-yr., 20c; larger size, 35c; 2-yr., 50c; X-tra size, 75c.
- White Dorothy. Free from mildew, flowers are a glistening white in trusses. 1-yr., 20c; larger size, 30c.
- x Excelsa. Brilliant fiery red or intense crimson-scarlet flowers, which are very double and borne in trusses. 1-yr., 20c; 3 for 50c; larger size, 30c; 2-yr., 50c; X-tra size, 75c.
- Flower of Fairfield. Crimson flowers. 1-yr., 40c.
- Lady Gay. Delicate cherry-pink, fading to a soft-tinted white. 1-yr., 20c; 4 for 75c; larger size, 30c.
- Miss G. Messman. (Climbing Baby Rambler.) Bright carmine flowers. An easy grower. 1-yr., 30c; larger size, 40c.
- x Philadelphia Rambler. Color deep intense crimson. 1-yr., 20c; 3 for 50c; larger size, 30c; 2-yr., 50c; X-tra large, 75c.
- x Pink Rambler. Pink flowers. 2-yr., 50c; X-tra size, 75c.
- x Prairie Queen. Bright, rosy red. 1-yr., 25c; 2-yr., 50c; X-tra size, 75c.
- x Veilchenblau. Steel blue flowers. 1-yr., 25c; 2-yr., 50c; X-tra size, 75c.
- Russell's Cottage. Dark, velvety crimson. 1-yr., 20c; 2-yr., 30c.
- x Thousand Beauties. White, delicately flushed pink which changes to rosy carmine. 1-yr., 20c; 3 for 50c; large size, 30c; 4 for \$1.00; 2-yr., 50c; X-tra size, 75c.
- x Yellow Rambler. Yellow flowers. 2-yr., 50c; X-tra size, 75c.

Wichuraiana, or Memorial Roses

- Cherokee. Flowers pure white. 1-yr., 20c; 3 for 50c; larger size, 35c.
- Hiawatha. Ruby-carmine, with white eye. 1-yr., 20c; 2-yr., 50c; X-tra size, 75c.
- Manda's Triumph. Double pure white flowers, sweetly scented. 1-yr., 20c; 2-yr., 40c; X-tra size, 60c.
- x Marechal Neil. The finest, bright golden yellow. Suitable only for southern states. 1-yr., 25c; larger size, 35c.
- Universal Favorite. Rose color. 1-yr., 20c; 2-yr., 50c; X-tra size 75c.
- Dr. W. Van Fleet. Flesh-pink. X-tra size, 75c.
- Memorial Rose. White with golden center. 1-yr., 20c; 2-yr., 50c; X-tra size, 75c.

Wagner Park Lily Cannas

The Finest Grown

Visitors are invariably enthused at the beauty and size of Wagner Park Cannas with their wide, arching leaves and stiff stalks of flaming flowers growing like torches above their noble foliage. The effectiveness is not confined to only a few weeks' display, but being exuberant in growth, a bed of Cannas soon become attractive after planting and each day thereafter adds to its beauty.

Cannas should not be planted out-of-doors until after all danger of frost is over. They may be planted as late as June, but the earlier planted, the better the results. The most practical way to care for the roots over winter is to take up the clumps after the first killing frost, leaving some earth adhere to the roots. Place them in a dry cellar where frost will not penetrate. Do not allow the roots to become too dry or the tubers will wither, but care should be taken that they are not too moist to allow mildewing. In spring the bulbs can be started in sand in the house, if kept moist, or can be planted in the open ground as soon as all danger of frost is over.

A Canna Bed Like This for \$10.00

Size of Bed, 16 Feet in Diameter.

This Collection consists of 64 Choice Cannas, 7 Pillar of Fire for center, 32 Wyoming for second circle, 25 Mad. Crozy for outside row and 42 Bright Red Coleus for edging. The entire Collection, a Floral Feast of Lily-Cannas, 106 plants for only \$10.00.

Two Choicest Cannas

King Humbert. Medium height. This grand, magnificent Canna is of the Orchid flowering class. The flowers are unusually large and are held well above the foliage. The color is bright, orange-scarlet, streaked with crimson. The foliage is large, thick and leathery of dark bronze color with brownish-green stripes, producing a most gorgeous effect. 35c each; 3 for \$1.00; \$3.00 per doz.

Liberty (Wagner Park Introduction). This Canna is indeed a marvelous beauty, possessing strong growing qualities and of greatest freedom to bloom. It is very distinct in habit of growth, producing heavy compact foliage of a dark bronze color. The flowers are produced in immense clusters on erect stalks and of unusually large size. The color is a brilliant orange-scarlet, very showy and attractive, attains a height of 3½ to 4 feet. Price, 40c each; 3 for \$1.00; \$3.75 per doz.

Special Offer---Two Choicest Cannas

Wagner Park Lily Cannas

A Canna Bed Like This for \$5.00

Size of Bed, 10 Feet in Diameter.

Consists of 36 Egandale Cannas; 30 Bright Yellow Coleus for Edge.

Cannas produce more color for the outlay and for a longer period than any other plant. No other flowers will make such an attractive display. They are of most rapid growth and free to bloom and with their ornamental foliage makes them so desirable for planting in beds on the lawn.

Chas. Henderson. Medium grower. The standard of all crimson cannas. Bright crimson flowers, with pencilings of golden yellow at center. An excellent variety for general planting, sure to give satisfaction. 15c each; \$1.50 per doz.

Duke of Marlborough. Medium height; the darkest Canna grown. One of the most erect, handsome plants, with fine metallic-green foliage. Flowers, deep crimson-maroon. 25c; \$2.50 per doz.

Egandale. Medium height. A most excellent variety, with bronzy foliage and soft, currant-red flowers which are thrown well above the foliage; the best of its type. 20c; \$2.00 per doz.

Gigantea. Tall grower. This variety makes a luxuriant growth and the foliage is a good green color. Flowers are medium size and are of orange-yellow color. 15c each; 4 for 60c; \$1.50 per doz.

Hungaria. Medium grower. The ideal pink bedder, flowers large, in good trusses. 25c; \$2.50 per doz.

Mme. Crozy. Dwarf grower. The popular golden-edged bright scarlet; green foliage. 15c; \$1.50 per doz.

Mt. Etna. Tall grower. Dark purple foliage and brilliant crimson flowers. 20c; \$2.00 per doz.

Pillar of Fire. A giant in height; color is bright crimson scarlet; medium-sized flowers. 25c; \$2.50 per doz.

Queen Charlotte. Dwarf grower. Rich crimson-scarlet with wide gold border on every petal; a profuse bloomer; broad green leaves. 20c; \$2.00 per doz.

Wyoming. Medium grower. A good strong grower with bronzy purple foliage. The flowers are orange-red color and in large clusters. Any good garden soil will produce a fine growth of this remarkable variety. This variety will make a great show for any lawn. 15c each; \$1.50 per doz.

Dear Sirs:

Charleroi, Pa.

My order arrived today in good shape. Please accept my thanks for extra goods you sent. I ordered some goods this spring from two other concerns and will say yours are far the nicest shrubs of all.

Yours truly,

H. A.

Wagner Dahlias.

Dahlias

Show, Decorative, Cactus, Pompon and Single Varieties

Within the last few years a wonderful revival of interest in the Dahlias is noted, which has resulted in their now being very important rivals to all other bedding plants.

We recommend Dahlias to anyone wanting an attractive bedding plant and something that will also give a liberal supply of fine cut flowers. They are also very effective planted among shrubs and perennials.

Dahlias are very showy and attractive and best results are obtained if planted early; however, they can be planted very late with good results.

Arabella (Show Dahlia). A profuse flowering variety. Color, pale primrose, tipped and shaded old rose and lavender. 25c; \$2.50 per doz.

A. D. Livoni (Show Dahlia). This is the loveliest of all. Color, a very light silvery pink, petals beautifully quilled. We consider this one of the very best varieties. 25c; \$2.50 per doz.

White Cactus. A magnificent flower of largest size and distinctly unique form, as the petals are rolled up so that the edges overlay each other. The color is pure white. 30c; \$3.00 per doz.

Clifford W. Bruton (Decorative Dahlia). The best yellow; of immense size, perfect form, and of the finest canary yellow. A tall, vigorous grower and extremely free bloomer. Should be in every collection. 25c; \$2.50 per doz.

Countess of Lonsdale (Cactus). The freest-flowering Cactus Dahlia in the collection, and perfect in form. Color, an exquisite shade of rich salmon, with just a suspicion of apricot at the base of the petals. Towards the tips the color deepens gradually to the softest carmine pink. The finest variety in the entire list. 25c; \$2.50 per doz.

Grand Duke Alexis (Decorative Dahlia). The color is white, tinged delicate pink. 20c; \$2.00 per doz.

J. H. Jackson (Cactus). Brilliant dark crimson maroon. One of the very finest. 25c; \$2.50 per doz.

Mary D. Halleck (Show Dahlia). An excellent upright growing variety producing unusually long stiff stems crowned with a large compact golden yellow flower, full to the very center. A most showy variety and one of distinct habit. 20c; \$2.00 per doz.

Snowclad (Pompon Dahlia). Flowers snowy white, perfect in form. A dwarf grower; very early, covered with a mass of blooms the whole season. Its dwarf, compact habit and freedom of bloom combine to make it one of the very best for bedding purposes. 20c; \$2.00 per dozen.

Snowflake (Show Dahlia). This superior variety is a very early and profuse bloomer. The flowers are snow white, of perfect form, and full to the center. As a cut flower it is ideal, while for grouping or as a specimen plant it is one of the very best. 20c; \$2.00 per doz.

Tango (Cactus). This is the Dahlia for the million. It is a most remarkable variety—blooming in the greatest profusion, and under most all conditions, from the beginning to the end of the season. The color is "Tango Shade." The blending of color is so pleasing, and flowers so perfectly and freely, everyone seeing them is perfectly delighted. The flowers are excellent for cutting and very lasting. Get your order in early. 25c each; \$2.50 per doz.

Twentieth Century (Single Dahlia). The most exquisite Dahlia ever introduced. No orchid could be more delicate in color or yet richer in shading. It is purest white at the tips and gradually shading toward the center of the petals to delicate blush rose, and finally bursting into a flame of brilliant violet-crimson. Not variegated, but a wonderful blending of colors. 25c; \$2.50 per doz.

Special Dahlia Collection for Bed 10 Feet in Diameter

Owing to the low price the selection of variety must be left to us. 30 thrifty roots or plants in 3 varieties, \$4.00.
We ship dormant roots as long as they last, then send thrifty growing plants.

Dahlia Culture Directions

The Dahlia is one of the most satisfactory flowers as it continues in bloom for many months. It also adapts itself to a great many conditions where other plants would fail.

Bulbs or plants can be planted in spring as it is safe from frost, and planting may be made as late as June 15th and still have good success. To make good specimen plants, set two to three feet apart, if planted in single rows. If planted in beds they should be planted closer. Bulbs should be planted 4 inches below the surface of the soil. Any good garden soil will grow Dahlias, but we know of no other plants that will better repay any extra labor in supplying them with liberal manuring and a constant supply of water during the hot months. Keep the plants well staked from the time they are 12 inches high. If you wish extra large flowers pick off some of the smaller buds. This will result in more perfect flowers. In the fall, as soon as the frost has killed the foliage, the roots should be lifted, shaking the soil from among them. Then store away in a cool place, not too dry, but secure from frost.

Wagner's Superb Gladioli

America. One of the greatest favorites. The color an exquisite shade of delicate flesh pink. \$1.00 per doz.; \$5.00 per 100. Select bulbs, 15c; \$1.50 per doz.; \$10.00 per 100.

Augusta. Pure white in color, with blue anthers. It produces long, straight spikes, often with several branches. \$1.00 per doz.; \$7.00 per 100. Select bulbs, \$1.50 per doz.; \$10.00 per 100.

Mrs. Francis King. Large scarlet flowers of graceful form, borne on a spike that is tall and straight. It is one of the most popular varieties. Excellent for cutting. \$1.00 per doz.; \$5.00 per 100. Select bulbs, 15c; \$1.50 per doz.; \$10.00 per 100.

First Prize Pink. One of the finest varieties for cutting ever sent out; color a beautiful soft flesh pink; orchid-like in its coloring and texture; growth and habit perfect. 10c each; \$1.00 per doz.; \$7.00 per 100. Select bulbs, 15c; \$1.50 per doz.; \$10.00 per 100.

First Prize Red. The best and most effective scarlet for massing. 10c each; \$1.00 per doz.; \$5.00 per 100. Select bulbs, 15c; \$1.50 per doz.; \$10.00 per 100.

First Prize White. A lovely and useful white variety. 15c each; \$1.00 per doz.; \$7.00 per 100. Select bulbs, 15c; \$1.50 per doz.; \$10.00 per 100.

First Prize Collection

This strain affords an unusually fine range of colors. All large flowering kinds. One of the finest mixtures possible to make. 75c per doz.; \$4.00 per 100. Select bulbs \$1.00 per doz.; \$6.00 per 100.

Choice Bedding Plants Geraniums

Geraniums are the best known and most extensively grown of all bedding plants. Much of this is because of their easy culture, freedom of bloom and showy clusters of flowers.

The following collection of Geraniums has been carefully selected as the very best for summer blooming. All have been thoroughly tested by us and we can recommend every one sure to give satisfaction and wealth of beautiful blossoms this season.

Alfonse Ricard. Bright vermilion-scarlet, individual flowers as well as trusses are large size; an excellent variety. 15c; \$1.50 per doz., prepaid. Large size, 20c; \$2.00 per doz. Extra heavy plants, 30c; \$3.00 per doz.

Bruant. An old favorite, and still one of the best and most brilliant scarlet varieties. Blooms in large sized trusses and is in bloom continually, while the plant is vigorous and strong in growth. 10c; \$1.00 per doz., prepaid. Larger size, 15c; \$1.50 per doz. Extra heavy plants, 25c; \$2.50 per dozen.

S. A. Nutt. Rich dark crimson. The flowers are of the most perfect shape and large size. The trusses are massive and produced in great number. Close, compact habit. 10c; \$1.00 per doz., prepaid. Large size, 15c; \$1.50 per doz. Extra heavy plants, 25c; \$2.50 per doz.

Scarlet Beauty (New). Our own introduction. This wondrous beauty is a strong, upright grower producing long, stiff straight stems which are crowned with immense clusters of rich, brilliant scarlet flowers and are fully double. A most prolific bloomer and the individual blossoms often measure more than 2 inches in diameter. Frequently there are a dozen perfect flowers on a single stem with 20 to 30 unopened buds so one can imagine the great beauty and size of their flower clusters. Prices, thrifty, well-rooted plants, 30c; \$3.00 per dozen, prepaid. Larger size, 40c; \$4.00 per doz. Extra heavy plants, 60c; \$6.00 per doz.

Special Geranium Offer

1 Alfonse Ricard	}	Thrifty plants, 50c, prepaid.
1 Bruant		Larger size, 75c.

Other Choice Bedding Plants Antirrhinum - Snapdragon

Daphne. Soft rose-pink. 10c; \$1.00 per doz.
Golden Queen. Rich, pure yellow. 10c; \$1.00 per doz.
Mont Blanc. Pure white flowers. 10c; \$1.00 per doz.

Coleus

Are almost indispensable where beds of brilliant foliage are wanted. Also used for edging and ribbon beds.

Brilliant Red. 10c; \$1.00 per doz.; \$6.00 per 100. Larger, 15c; \$1.50 per doz.; \$8.00 per 100.
Golden Bedder. Fine yellow, clear and distinct. 10c; \$1.00 per doz.; \$6.00 per 100. Larger size, 15c; \$1.50 per doz.; \$8.00 per 100.

Fuchsias

Well known favorites for planting out in partially shaded positions during the summer or for early spring-flowering in the window or greenhouse.

Black Prince. Bright, waxy carmine sepals and pink corolla. 15c; \$1.50 per doz. X-tra large, 25c each.

Salvia

Bonfire (Scarlet Sage). This is one of the finest of the Scarlet Sages. Its erect spikes of brilliant scarlet flowers stand clear above the dark green foliage and completely cover the plants. 10c; \$1.00 per doz.; \$5.00 per 100. Larger, 15c; \$1.50 per doz.; \$8.00 per 100.

Desirable Pot Plants for House and Veranda

The same evolution has taken place in flowers for the house and veranda as in furniture and other things to complete the decorations of the living room of today. The window full of blooming plants, fuschia, petunia, and a dozen others with their blossoms of brilliant hues is now seldom seen. Palms, ferns and other plants with decorative foliage now have the preference. They are not only more attractive, but require less care and thrive where the others will not.

Palm Kentia Belmoreana

The hardiest, and while of slow growth, they withstand the dry atmosphere of the house better than any other variety. Fine, rich green foliage and very graceful. Fine healthy growing plants from 3 inch pots, 10 to 12 inches high, 35c each.

Fine healthy growing plants. 12 to 15 inches high, 50c each.

Fine healthy growing plants. 15 to 18 inches high, 75c to \$1.00 each.

Fine healthy growing plants. 20 to 24 inches high, \$1.50 each.

Fine healthy plants. 24 to 30 inches high, \$2.00 each.

Palm Areca Lutescens

Most graceful and beautiful in cultivation. Bright green foliage, golden yellow stems.

Nice thrifty plants. 12 to 15 inches high, 35c each.

Fine healthy growing plants. 15 to 18 inches high. 50c to 75c.

Large healthy growing plants. 18 to 20 inches high, 75c each.

Large healthy plants. 24 to 30 inches high, \$1.00 to \$1.50 each.

Asparagus

Plumosus Nanus. A beautiful plant with bright green, gracefully arched foliage. An excellent pot plant. Nice plants, 15c; larger, 25c. Heavy bushy plants, 50c.

Sprengeri. Especially useful to be grown as a pot plant for decorative purposes or for planting in ferneries or suspended baskets. It grows freely the whole year round, as it withstands dry atmosphere. It makes an excellent house plant. Nice plants, 15c; larger size, 25c. Heavy bushy plants, 50c.

Specimen Boston Fern.

Kentia Palm.

Ferns

Boston Fern (*Nephrolepis Bostoniensis*). This variety is the most popular of all Ferns. The leaves are long and slender, drooping gracefully, making very elegant specimen plants. We know of no better all-around decorative plant for all purposes. Many other varieties are offered but anyone desiring the best variety will be recommended the Boston Fern. Nice young plants, 20c; large plants, 35c; specimens, 50c, 75c, \$1.00 and \$1.50 each.

COLLECTION No. 1A HOUSE PLANTS	1 Boston Fern, worth.....	25c	Five Choice Plants \$1.00 Prepaid

	1 Asparagus Sprengeri, worth.....	.35	
	7 Choice Table Ferns, worth..	1.00	

Carax

Japonica Variegata. An ornamental Japanese grass which is extremely useful as a house plant; of easy growth, withstanding the dry atmosphere of the heated rooms. Excellent for the fern dish. Large size plants, 25c each.

Small Ferns for Fern Dishes

Nothing adds greater cheer to the home than growing plants.

The use of ferneries as ornaments for the dinner table is very general. We can furnish at all times some fine, healthy plants of the best assorted varieties. Large plants, 15c each; 12 for \$1.50, prepaid. Extra heavy plants, assorted kinds, 25c; \$2.50 per doz.

A Page of Great Flower Bargains

We Pay All Delivery Charges On the First Twelve Collections Here Offered:

On this page will be found many desirable collections of plants at greatly **Reduced Prices**. Look at the value given in these "Special Offers." It seems almost like giving away stock. These collections consist of standard sorts, tried and true, and all varieties carefully labeled. The selection of varieties must be left to us, owing to the extremely low prices. This, however, is a wise thing to do, as we can then send varieties best adapted to the locality where to be planted.

Assortment No. 1B—Eight strong, ever-blooming roses, plants that will produce satisfactory results, \$1.00.

Assortment No. 2-A—Seven fine, healthy Salvia plants. The bright scarlet variety, 50c.

Assortment No. 2-B—Eighteen strong, everblooming roses including three good climbing varieties, \$2.00.

Assortment No. 4—Twelve thrifty, young Hardy Plants, all varieties, labeled true to name, \$1.00.

Assortment No. 4-A—Fifteen thrifty Coleus plants; these have bright showy foliage, 50c.

Assortment No. 6—Twenty-five strong, healthy Hardy Plants, five distinct varieties, \$2.00.

Assortment No. 7—Ten choice Hardy Chrysanthemums; the beautiful fall flower, \$1.00.

Assortment No. 7-A—Ten Thrifty, hardy Larkspur, (Delphinium)\$1.00

Assortment No. 8—Ten nice young, thrifty Phlox plants; sure to bloom and give satisfaction, \$1.00.

Assortment No. 8-A—Ten Choice, thrifty Eulalias, Assorted, \$1.00.

Assortment No. 9—Ten Choice Day Lilies, five varieties, \$1.00.

Assortment No. 9-A—Twelve Choice Wagner Grown Iris. Twelve varieties, \$1.00.

ALL ABOVE COLLECTIONS ARE SENT PREPAID.

Special Collections for Verandas, Foundations, Borders, Etc.

For the convenience of those who do not have the knowledge, or have not the time to study the catalog and select plants that will give good and effective results, we have arranged the following assortments, which are suitable for planting against veranda and house foundations or for general grouping. With these various assortments you will find some to meet your particular needs and give the same results as illustrated on this page.

Assortment No. V-A—10 Nice thrifty Hardy Shrubs, \$2.50. Extra large plants for immediate effect, \$5.00.

Assortment No. V-B—20 Nice thrifty Hardy Shrubs, \$4.50. Extra large plants for immediate effect, \$9.00.

Assortment No. V-C—25 Nice thrifty Hardy Shrubs, \$5.25. Extra large plants for immediate effect, \$10.00.

Assortment No. V-D—50 Nice thrifty Hardy Shrubs, \$10.00. Extra large plants for immediate effect, \$20.00.

Assortment No. V-E—100 Nice thrifty Hardy Shrubs, \$18.00. Extra large plants for immediate effect, \$35.00.

Wagner Hardy Borders are Perennial Pleasures

Wagner Hardy Borders are made up of the handsomest and hardiest of Perennials and Herbaceous Plants already arranged for setting out with a view to securing the finest effect in the space at command and the longest period of harmonious bloom.

Varieties in every Wagner Border are labeled, numbered and packed in proper order for planting. You can make a perfect picture of your place with one of these artistic color schemes. And REMEMBER!—once established, a Wagner Hardy Border needs little care for years.

These collections are suitable for borders along fences, screens, boundary lines, walks, and formal gardens.

Assortment No. B-1—For bed 4x10 feet, consisting of 15 thrifty Hardy Plants, \$2.25; extra large plants, \$3.75.

Assortment No. B-2—For bed 4x20 feet, consisting of 30 thrifty Hardy Plants, \$4.50; extra large plants, \$7.50.

Assortment No. B-3—For bed 5x10 feet, consisting of 20 thrifty Hardy Plants, \$3.00; extra large plants, \$5.00.

Assortment No. B-4—For bed 5x10 feet, consisting of 20 thrifty Hardy Plants, \$6.00; extra large plants, \$10.00.

Assortment No. B-5—25 Nice thrifty Hardy Plants, \$3.75; in extra large plants, \$6.25.

Assortment No. B-6—50 Nice thrifty Hardy Plants, \$7.50; in extra large plants, \$12.50.

Assortment No. B-17—20 Nice plants, "Wagner Iris," \$2.00; in extra large plants, \$3.50.

Assortment No. B-18—15 Nice thrifty Eulalias in three varieties, large plants, \$2.00; extra large plants, \$4.50.

We always ship proportionate quantities of tall, medium, and dwarf varieties in filling orders for these collections and label the plants so anyone can properly arrange them that the most artistic and pleasing effects are obtained.

Note Anyone desiring a plan for planting any of the Collections offered above may obtain same by sending us, with their order, a rough sketch with dimensions of that part of grounds desired to improve.

WAGNER'S LAWN GRASS SEED

How to Make a Lawn.

All good gardeners now use seed for the making of a good lawn in preference to turf or sod. The preparation of the ground is an important feature and the best soil is a medium texture, neither very heavy nor exceedingly light; the surface should be thoroughly pulverized and level. Remove all stones, sticks, sods, etc., harrow or rake it fine and roll it firm. It is impossible to get the soil too fine to receive the seed. Sow the best seed obtainable; it is always cheapest in the end. It is best to sow seed liberally, not only to produce a lawn quickly, but because the best lawn seed produces fine-leaved grasses, which should take entire possession of the ground at once, thus choking out and preventing the development of any weed seeds, which are apt to be in all soils. Distribute seed evenly, going both ways across the plot. After sowing, cover the seed by raking lightly; then roll the ground.

When the grass has become well rooted, use lawn mower for cutting it, and keep mower sharp, as if dull it will pull and injure the grass, besides causing the lawn to have an uneven appearance. Never allow the grass to become so high that the mower will take off the first joint, as this is an injury. Mow as often as necessary; in growing weather, at least once a week. Let the short clippings remain on the lawn, as they wither and dry and form a protection to the roots. When the clippings are long, they should be raked off, for, besides being unsightly, they are also injurious. When the weather is dry and hot, avoid cutting too close.

Quality of Lawn Grass Seed Usually Required in Making a New Lawn.

10 x 25 feet requires.....	1 pound	40 x 60 feet requires.....	10 pounds
25 x 50 feet requires.....	5 pounds	50 x 100 feet requires.....	16 pounds
40 x 50 feet requires.....	8 pounds	50 x 150 feet requires.....	24 pounds

For Renewing Old Lawns—Use about one-half the quantity given above.

"WAGNER PARK" Grass Seed—A special mixture which we prepare. Prices: 50 cents per pound; 5 pounds for \$2.20; bushel (20 pounds) for \$8.10.

"PREMIUM" Grass Seed—This mixture, while not quite equal in quality to "Wagner Park" variety, is a good clean mixture and an excellent lawn may be produced with it. Prices: 45 cents per pound; 5 pounds, \$1.90; bushel (16 pounds) \$5.65.

"SHADY LAWN" Grass Seed—Fine for shady places and where other grasses will not grow. 50 cents per pound; 5 pounds, \$2.20; bushel (16 pounds), \$6.25.

Prices of seed for Golf grounds quoted on application.

WAGNER LANDSCAPE SERVICE

makes possible *immediate* effects.

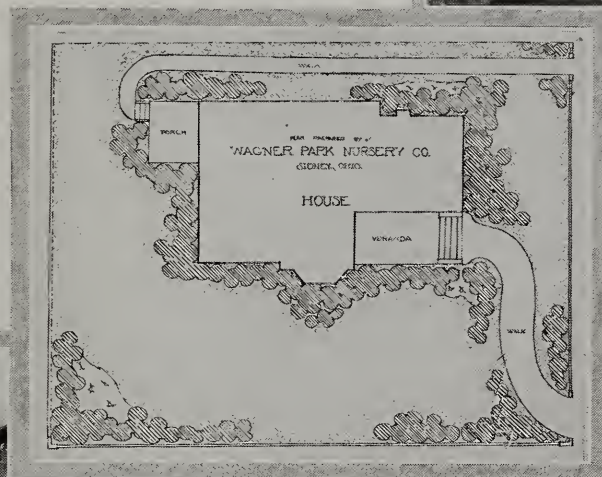

While our Landscape Service is complete in every detail, perfectly equipped to plan layouts and supervise the planting of all private and public grounds, we maintain a department especially for the owner of the ordinary home grounds. For a special fee of only \$2.00 we are prepared to make a plan for your grounds—giving you a garden that will bloom from springtime to frost. At the same time you receive a coupon for the \$2.00, good for credit on an order for plants amounting to ten dollars or more. You receive a sketch drawn especially for your grounds—one that will mean an individual beauty and distinctiveness for your grounds.

—and you get the personal service of

Janet Brown

Janet Brown is an artist in the designing of home gardens.

She has made an extensive study of effects and her work is attracting unusual attention, not only for its originality, but for its perfect harmony of design, even with the smallest grounds. She has spent a number of years in this work, and shows promise of becoming one of the most famous Landscape Artists of the country.

Send us a rough sketch of your grounds, showing locations of buildings, walks, drives, if any, also trees and shrubbery, or any other permanent things already established and that are not to be removed. Show location of all the entrances to lot and buildings, any objectionable or desirable views from the residence, and grades of any importance. Photographs will

also be of valuable assistance if convenient to send. The sketch need not be drawn to scale, but should show the width and depth of the lot, and other principal dimensions.

We wish to impress upon the minds of our customers that this is not a scheme of any kind by which we are receiving pay for the sketch, but it is done only as a safeguard against some curious persons that would impose upon us and ask for plans with little or no intention of making use of them.

NOTE.—The above arrangement applies principally to home grounds of moderate size and not to extensive or elaborate grounds where a large amount of work is involved. We are

prepared also, to do this class of work and solicit correspondence from parties desiring such work. We furnish plans by mail, or when desired, will send a landscape gardener to do the work or instruct you how to do it. Our terms are very reasonable.

We Design and Plant Large Public and Private Grounds of All Kinds

Planting and furnishing stock for Parks, Factory Grounds, Schools, Universities, Sanitariums, and Hotel Grounds is one of our specialties, and we are prepared to plan and advise how and what to plant to produce the best results and with the least amount of labor and expenditure. Call on us when in need of such service; we assure satisfaction.

Rose of Sharon

(ALTHEA)

Few if any of the summer flowering hardy shrubs can surpass the splendor and beauty of the "Rose of Sharon." Their habit of growth is upright and are as desirable for grouping and planting among other shrubs as for single specimens on the lawn. These plants are highly decorative and particularly effective, coming into flower in late summer when few other shrubs are in flower. They make a steady growth and flower very profusely every year beginning to bloom in The flowers are of early August and continue until fall. large size and many are double and quite full to the center.

Another desirable feature is that they make excellent tall hedges and are indeed a sight to behold when in full bloom. For hedge planting assorted colors are most desirable and effective.

WE OFFER MIXED COLORS:

Large size, 35c each; 3 for \$1.00; 12 for \$3.00. Heavy plants, 50c each; 5 for \$2.00; 12 for \$4.00. Extra large size, 75c each; 3 for \$2.00; 12 for \$6.00.
